Activity report

September 2023

Monetary policy: The ECB again raised its key rates by 25 basis points, thereby bringing the deposit facility, refinancing and marginal rates to respectively 4.00%, 4.50% and 4.75% with effect from September 20, 2023. This new adjustment reflects the central bank's revised inflation projections, which currently stand at 5.6% in 2023 and 3.2% in 2024, still well above the 2% target. **Investment policy:** - **Liquidity:** Instantaneous liquidity was essentially provided by overnight transactions. - **Interest rate risk:** The portfolio's weighted average maturity (WAM) was of one day at the end of the period. - **Credit risk:** Short-term spreads remained stable at the end of the period. At the short end of the curve, they stood at respectively €STR +8bp to €STR +30bp on maturities of three months to one year. Note that in the country allocation, puttables appear based on final maturities, not the redemption-at-par option attached to this type of product. At month-end, the bond weighting stood at about 11% of fund assets, including nearly 1% in puttables, most of which are matched with three-month puts. BBB rated issuers represented about 12% of the portfolio at month-end. - **Average life and average rating:** The weighted average life (WAL) of this money-market portfolio is 121 days. Its average long-term rating remains good at A+.- **Social responsibility:** The portfolio had an average SRI rating of C at month-end, which is better than that of its investment universe adjusted for 20% of the worst-rated issuers D (rating of investment universe is D).

October 2023

Monetary policy: After ten consecutive interest-rate hikes, the European Central Bank (ECB) decided on a pause in October. The interest rate on the main refinancing operations and the interest rates on the marginal lending facility and the deposit facility remain unchanged at respectively 4.50%, 4.75% and 4.00%. The ECB considers that its key interest rates "are at levels that, maintained for a sufficiently long duration, will make a substantial contribution" to achieving its 2% medium-term target. **Investment policy:** - **Liquidity:** Instantaneous liquidity was essentially provided by overnight transactions. - **Interest rate risk:** The portfolio's weighted average maturity (WAM) was of two days at the end of the period. - **Credit risk:** Short-term spreads remained stable at the end of the period. At the short end of the curve, they stood at respectively €STR +8bp to €STR +31bp on maturities of three months to one year. Note that in the country allocation, puttables appear based on final maturities, not the redemption-at-par option attached to this type of product. At month-end, the bond weighting stood at about 11% of fund assets, including nearly 1% in puttables, most of which are matched with three-month puts. BBB rated issuers represented about 13% of the portfolio at month-end. - **Average life and average rating:** The weighted average life (WAL) of this money-market portfolio is 133 days. Its average long-term rating remains good at A+.- **SRI profile:** The portfolio had an average SRI rating of C at month-end, which is better than that of its investment universe adjusted for 20% of the worst-rated issuers (D).

November 2023

Monetary policy: The interest rate on the main refinancing operations and the interest rates on the marginal lending facility and the deposit facility remain unchanged at respectively 4.50%, 4.75% and 4.00%. Annual inflation continued to decline in the Eurozone in November, dropping to 2.4%, from 2.9% in October. This is closer to the ECB's 2% inflation target and supports the high interest rates policy implemented since July 2022. **Investment policy:** - **Liquidity:** Instantaneous liquidity was essentially provided by overnight transactions. - **Interest rate risk:** The portfolio's weighted average maturity (WAM) was of two days at the end of the period. - **Credit risk:** Short-term spreads remained stable at the end of the period. At the short end of the curve, they stood at respectively €STR +8bp to €STR +31bp on maturities of three months to one year. Note that in the country allocation, puttables appear based on final maturities, not the redemption-at-par option attached to this type of product. At month-end, the bond weighting stood at about 11% of fund assets, including nearly 1% in puttables, most of which are matched with three-month puts. BBB rated issuers represented about 13% of the portfolio at month-end. - **Average life and average rating:** The weighted average life (WAL) of this money-market portfolio is 143 days. Its average long-term rating remains good at A+.- **SRI profile:** The portfolio had an average SRI rating of C at month-end, which is better than that of its investment universe adjusted for 20% of the worst-rated issuers (D).

UCIT AMUNDI EURO LIQUIDITY SRI

December 2023

Monetary policy: The ECB left its interest rates unchanged and gave no indication as to when it would start to lower them. The interest rate on the main refinancing operations and those on the marginal lending facility and deposit facility remain unchanged at respectively 4.50%, 4.75% and 4.00%. The ECB also said that the present level of interest rates, maintained for a sufficiently long period, would contribute to bringing inflation down to its 2% medium-term target. Investment policy: - Liquidity: Instantaneous liquidity was essentially provided by overnight transactions.- Interest rate risk: The portfolio's weighted average maturity (WAM) was of three days at the end of the period.- Credit risk: Short-term spreads remained stable at the end of the period. At the short end of the curve, they stood at respectively €STR +7bp to €STR +31bp on maturities of three months to one year. Note that in the country allocation, puttables appear based on final maturities, not the redemption-at-par option attached to this type of product. At month-end, the bond weighting stood at about 10% of fund assets, including nearly 1% in puttables, most of which are matched with three-month puts. BBB rated issuers represented about 13% of the portfolio at month-end.- Average life and average rating: The weighted average life (WAL) of this money-market portfolio is 116 days. Its average long-term rating remains good at A+.- Social responsibility: The portfolio had an average SRI rating of C at month-end, which is better than that of its investment universe adjusted for 20% of the worst-rated issuers (D).

January 2024

Monetary policy: As expected, the ECB left its key rates unchanged. The deposit facility, refinancing and marginal rates therefore remained at respectively 4%, 4.50% and 4.75%. Although everything points to a continuing decline in inflation, the ECB remains cautious with regard to the timing of its first interest-rate cuts. In effect, wage bargaining is still underway with substantial wage increases being demanded in some cases, such as in Germany, and the final outcome of these negotiations will not be known before April. Investment policy: - Liquidity: Instantaneous liquidity was essentially provided by overnight transactions.- Interest rate risk: The portfolio's weighted average maturity (WAM) was of five days at the end of the period.- Credit risk: Short-term spreads remained stable at the end of the period. At the short end of the curve, they stood at respectively €STR +6bp to €STR +30bp on maturities of three months to one year. Note that in the country allocation, puttables appear based on final maturities, not the redemption-at-par option attached to this type of product. At month-end, the bond weighting stood at about 10% of fund assets, including nearly 1% in puttables, most of which are matched with three-month puts. BBB rated issuers represented about 12% of the portfolio at month-end. - Average life and average rating: The weighted average life (WAL) of this money-market portfolio is 127 days. Its average long-term rating remains good at A+.- SRI profile: The portfolio had an average SRI rating of C at month-end, which is better than that of its investment universe adjusted for 20% of the worst-rated issuers (D).

February 2024

Monetary policy: The ECB left its intervention rates unchanged during the month. Christine Lagarde considers the data as yet insufficient to be certain of a lasting return to the 2% inflation target. She is therefore unable to say whether interest rates will be lowered at the end of the spring or at the beginning of the summer. Investment policy: - Liquidity: Instantaneous liquidity was essentially provided by overnight transactions.- Interest rate risk: The portfolio's weighted average maturity (WAM) was of 5 days at the end of the period.- Credit risk: Short-term spreads remained stable at the end of the period. At the short end of the curve, they stood at respectively €STR +6bp to €STR +28bp on maturities of three months to one year. Note that in the country allocation, puttables appear based on final maturities, not the redemption-at-par option attached to this type of product. At month-end, the bond weighting stood at about 10% of fund assets, including nearly 1% in puttables, most of which are matched with three-month puts. BBB rated issuers represented about 12% of the portfolio at month-end. - Average life and average rating: The weighted average life (WAL) of this money-market portfolio is 132 days. Its average long-term rating remains good at A+.- SRI profile: The portfolio had an average SRI rating of C at month-end, which is better than that of its investment universe adjusted for 20% of the worst-rated issuers (D).

Mach 2024

Monetary policy: The European Central Bank (ECB) left its key rates unchanged with the refi rate at 4.5%, the deposit facility rate at 4% and the marginal lending rate at 4.75%, their highest levels since the creation of the euro. ECB president Christine Lagarde reiterated that the central bankers will consider lowering their interest rates in June but said that the future rate path beyond that date remains uncertain. "By June we will have a new set of projections that will confirm whether the inflation path we foresaw in our March forecast remains valid", she said. Investment policy: - Liquidity: Instantaneous liquidity was essentially provided by overnight

UCIT AMUNDI EURO LIQUIDITY SRI

transactions.- Interest rate risk: The portfolio's weighted average maturity (WAM) was of 6 days at the end of the period.- Credit risk: Short-term spreads remained stable at the end of the period. At the short end of the curve, they stood at respectively €STR +6bp to €STR +28bp on maturities of three months to one year. Note that in the country allocation, puttables appear based on final maturities, not the redemption-at-par option attached to this type of product. At month-end, the bond weighting stood at about 11% of fund assets, including nearly 1% in puttables, most of which are matched with three-month puts. BBB rated issuers represented about 12% of the portfolio at month-end.- Average life and average rating: The weighted average life (WAL) of this money-market portfolio is 137 days. Its average long-term rating remains good at A+.- SRI profile: The portfolio had an average SRI rating of C at month-end, which is better than that of its investment universe adjusted for 20% of the worst-rated issuers (D).

April 2024

Monetary policy: The ECB left its intervention rates unchanged. The deposit facility, refinancing and marginal rates therefore remained at respectively 4%, 4.50% and 4.75%.The central bank considers that the present level of interest rates contributes strongly to disinflation and that inflation continues to slow thanks to the fall in the price of foods and goods. Christine Lagarde hinted that an interest-rate cut was possible in June while saying that the ECB would have new macroeconomic projections by then Investment policy: - Liquidity: Instantaneous liquidity was essentially provided by overnight transactions.- Interest rate risk: The portfolio's weighted average maturity (WAM) was of five days at the end of the period.- Credit risk: Short-term spreads remained stable at the end of the period. At the short end of the curve, they stood at respectively €STR +6bp to €STR +28bp on maturities of three months to one year. Note that in the country allocation, puttables appear based on final maturities, not the redemption-at-par option attached to this type of product. At month-end, the bond weighting stood at about 11% of fund assets, including nearly 1% in puttables, most of which are matched with three-month puts. BBB rated issuers represented about 11% of the portfolio at month-end.- Average life and average rating: The weighted average life (WAL) of this money-market portfolio is 140 days. Its average long-term rating remains good at A+.- SRI profile: The portfolio had an average SRI rating of C at month-end, which is better than that of its investment universe adjusted for 20% of the worst-rated issuers (D).

May 2024

Monetary Policy: The interest rates for the main refinancing operations as well as those for the marginal lending facility and the deposit facility remain unchanged at 4.50%, 4.75%, and 4.00% respectively. The latest Eurozone inflation figures published by Eurostat at the end of the month show an increase for the month of May, at 2.6% against an expectation of 2.5%.Following this publication, markets have reduced their expectations of rate cuts by the ECB. While the expected decrease in June remains highly anticipated, the next actions of the Central Bank will depend on the data. The next meeting of the Governing Council will take place on June 6. Management Policy: - Liquidity: Instant liquidity was primarily ensured through overnight operations.- Interest Rate Risk: The weighted average maturity (WAM) of the portfolio stands at 5 days at the end of the period.- Credit Risk: Short-term spreads tightened at the end of the period, they stand at levels of €str + 5 to €str + 25 bps for maturities of 3 months to 1 year. It should be noted that the country allocations show puttable securities based on final maturities and not on the option of repayment at par attached to this type of product. The weighting in bonds stands at about 12% of the fund's assets at the end of the month, with nearly 1% in puttables mostly featuring 3-month puts. The share of BBB-rated issuers represents about 12% of the portfolio at the end of the month. - Average Life and Average Rating: The weighted average life (WAL) of this portfolio belonging to the money market category is 144 days. The portfolio's average long-term rating remains at a good level of A+.- Socially Responsible Dimension: The portfolio has an average SRI rating of C at the end of the month, which is a level higher than that of its investment universe minus the 20% of issuers rated D.

June 2024

Monetary Policy: The European Central Bank lowered its key interest rates by 25 basis points on June 6 (effective June 12), bringing the refi rate to 4.25%, with the deposit facility rate and the marginal rate set at 3.75% and 4.50% respectively. Consequently, the level of the €str settled around 3.65% compared to 3.90% during the month of May. During the meeting, Christine Lagarde reaffirmed that inflation remains the ECB's primary objective. Inflation projections have been updated, averaging 2.5% in 2024 and 2.2% in 2025. Inflation is not expected to fall below 2% before 2026. The Central Bank's next actions will remain data-dependent. The next meeting of the Governing Council will take place on July 18. Portfolio Management Policy: - Liquidity: Instant liquidity was mainly ensured through overnight operations.- Interest Rate Risk: The weighted average maturity (WAM) of the portfolio was 5 days at the end of the period.- Credit Risk: Short-term spreads remained

UCIT AMUNDI EURO LIQUIDITY SRI

stable at the end of the period, with the exception of the 3-month spread which appreciated; they are at levels of €str + 9 to €str + 28 bps for maturities from 3 months to 1 year. It should be noted that the country allocations show puttable securities based on final maturities and not on the option to redeem at par attached to this type of product. The weighting in bonds at the end of the month amounts to about 12% of the fund's assets, with nearly 1% in puttables, mostly with 3-month puts. The share of BBB-rated issuers represents about 12% of the portfolio at the end of the month. - Average Life and Average Rating: The weighted average life (WAL) of this money market category portfolio is 138 days. The portfolio maintains a good long-term average rating of A+.- Socially Responsible Dimension: At the end of the month, the portfolio has an average SRI rating of C, which is a level higher than that of its investment universe excluding the 20% of issuers with the lowest D rating.

July 2024

Monetary Policy: The interest rates for the main refinancing operations, the marginal lending facility, and the deposit facility remain unchanged at respectively 4.25%, 4.50%, and 3.75%. The €str stands at around 3.66%. During the meeting on July 18, the ECB left its monetary policy unchanged. Inflation in the eurozone was recorded at 2.5% in June year-on-year, after 2.6% in May, according to final figures published by Eurostat. The ECB emphasized that domestic price pressures remain strong, service prices are rising at a high rate, and overall inflation is expected to remain above the target for much of next year. However, Christine Lagarde stated that the Governing Council does not commit in advance to a particular rate path. The ECB will continue to follow a data-dependent approach, meeting by meeting, to determine the appropriate level and duration of the measures. It wishes to keep all options available, thus, the market will pay particular attention to the next Governing Council meeting scheduled for September 12. Management Policy: - Liquidity: Instant liquidity was primarily provided by overnight operations.- Interest Rate Risk: The weighted average maturity (WAM) of the portfolio stands at 4 days at the end of the period.- Credit Risk: Short-term spreads remained stable at the end of the period, except for the 3-month which appreciated, they are at levels of €str + 10 to €str + 28 bps for maturities from 3 months to 1 year. It should be noted that country allocations show puttable securities based on final maturities and not on the par repayment option attached to this type of product. The weighting in bond securities at the end of the month is about 13% of the fund's assets, with nearly 1% in puttables mostly consisting of 3-month puts. The share of BBB-rated issuers represents about 12% of the portfolio at the end of the month.- Average Life and Average Rating: The weighted average life (WAL) of this portfolio in the monetary category is 138 days. The portfolio's average long-term rating remains at a good level of A+.- Socially Responsible Dimension: The portfolio has an average SRI rating of C at the end of the month, which is a level higher than that of its investment universe minus the 20% lowest-rated D issuers.

August 2024

Monetary Policy: The interest rates for the main refinancing operations as well as those for the marginal lending facility and the deposit facility remain unchanged at respectively 4.25%, 4.50%, and 3.75%. The €str has also remained stable during the review period around 3.66%. The ECB is preparing to cut its interest rates again at its next meeting on September 12, encouraged by the confirmation of the slowdown in inflation in the Eurozone. A 25 basis point rate cut is already fully priced into the short-term rate levels recorded at the end of August. Management Policy: - Liquidity: Instant liquidity was primarily ensured through overnight operations.- Interest Rate Risk: The weighted average maturity (WAM) of the portfolio stands at 3 days at the end of the period.- Credit Risk: Short-term spreads remained stable at the end of the period, coming out at levels of €str + 10 to €str + 28 bps for maturities of 3 months to 1 year. It should be noted that the country allocations show puttable securities based on final maturities and not on the par repayment option attached to this type of product. The weighting in bonds stands at about 13% of the fund's assets at the end of the month, with nearly % of puttables mostly featuring 3-month puts. The share of BBB-rated issuers represents about 11% of the portfolio at the end of the month.- Weighted Average Life and Average Rating: The weighted average life (WAL) of this portfolio belonging to the money market category is 129 days. The portfolio's average long-term rating remains at a good level of A+.- Socially Responsible Dimension: The portfolio has an average SRI rating of C at the end of the month, which is a level higher than that of its investment universe minus the 20% of issuers rated D.

e) Type and quality of collateral

Amundi Asset Management undertakes to accept only securities of a high credit quality and to increase the value of its collateral by applying valuation discounts to securities loaned to it. This process is regularly reviewed and updated.

i) Reuse of collateral

« The regulations governing UCIT forbid the reuse of collateral securities. Cash collateral received is:

- o reinvested in short-term money market funds (as defined by ESMA in its 'Guidelines on ETFs and other UCITS issues')
- o placed on deposit;
- o reinvested in high-quality long-term government bonds
- o reinvested in high-quality short-term government bonds
- o used for the purpose of reverse repurchase transactions.»

The maximum proportion of received collateral that may be reused is 0% in the case of securities and 100% in the case of cash.

The effective usage amounts to 0% for collateral securities and 100% for cash collateral.

k) Custody of collateral provided by the UCI

Amundi Asset Management undertakes to do business with a limited number of depositaries, selected to ensure the adequate custody of securities received and cash.

l) Breakdown of revenue and expenses

For securities lending transactions and repurchase agreements, Amundi Asset Management has entrusted Amundi Intermediation, acting on behalf of the UCIs, with the following responsibilities: selecting counterparties, ordering the implementation of market agreements, monitoring counterparty risk, performing qualitative and quantitative monitoring of collateralisation (dispersion checks, ratings, liquid assets), repurchase agreements and securities lending. Income generated from these transactions is paid into the UCIs. Costs generated by these transactions are incurred by the UCIs. Charges by Amundi Intermédiation must not exceed 50% of the income generated by these transactions.

Significant events during the financial period

This key investor information is accurate and up to date as at 01 July 2024.

Specific details

Voting rights

The exercise of voting rights attached to the securities included in the fund's assets and the decision on the contribution in securities are defined in the fund regulations.

Group funds and instruments

In order to obtain information on the financial instruments held in the portfolio that are issued by the Management Company or by its affiliates, please refer to the sections:

- Additional information,
- Group financial instruments held in the portfolio in the annual financial statements for the year ended, attached hereto.

Calculating overall risk

Specify the method used to measure the overall risk:

- Commitment calculation method

Futures contracts are recorded at their market value as off-balance-sheet commitments, at the settlement price. Conditional forward transactions are translated to the underlying equivalent. Over-the-counter interest rate swaps are evaluated based on the nominal amount, plus or minus the corresponding estimation difference.

- Overall risk calculation method: the mutual fund uses the commitment calculation method to calculate the mutual fund's overall exposure to financial contracts.
- Leverage - Funds to which the risk calculation method is applied Indicative leverage level: 15.9%.

Regulatory information

Selection procedure for brokers and counterparties

Our Management Company and its "Trading" subsidiary attaches great importance to the selection of transactional service providers that are brokers or counterparties.

Its selection methods are as follows:

- Brokers are selected by geographical area and then by business. Counterparties are selected by business.
- Brokers and counterparties are provided with a quarterly internal memorandum. The company departments involved in the rating process are directly concerned by the services rendered by these service providers.
The "Trading" subsidiary organises and determines this rating based on the scores provided by each team leader concerned, using the following criteria:

For teams of managers, financial analysts and strategists:

- general commercial relations, understanding of needs, relevance of contracts,
- quality of market and opportunities advice, consultancy monitoring,
- quality of research and publications,
- universe of securities covered, company and management visits.

For teams of traders:

- quality of personnel, market knowledge and information on companies, confidentiality,
- price proposals,
- quality of execution,
- quality of transactions processing, connectivity, technical standards and responsiveness.

Our Company's Compliance and Middle Office departments have a right of veto.

Accreditation of a new transactional service provider (broker or counterparty)

The Trading subsidiary is in charge of processing authorisation dossiers and obtain approval from the Risk and Compliance departments. When the transactional service provider (broker or counterparty) is authorised, it is rated in the following quarter.

Monitoring committees for transactional service providers (brokers and counterparties)

These monitoring committees meet every quarter under the chairmanship of the Trading subsidiary manager. The purpose of the meetings is to:

- validate past activity and the new selection to be implemented in the following quarter,
- decide on whether service providers will form part of a group that will be assigned a certain number of transactions,
- define the business outlook.

In this perspective, the monitoring committees review the statistics and ratings assigned to each service provider and take decisions accordingly.

Report on broking fees

A report on broking fees is available for bearers. It can be viewed at the following web address: www.amundi.com.

Remuneration Policy

Remuneration policy and practices of the AIFM/Management company

The remuneration policy implemented by Amundi Asset Management is compliant with the rules in terms of remuneration specified in the Directive 2011/61/UE of the European Parliament and of the Council of June 8th 2011 on Alternative Investment Fund Managers (the “*AIFM Directive*”), and in the Directive 2014/91/UE of July 23rd 2014 on undertakings for collective investment in transferable securities (the “*UCITS V Directive*”). These rules, about remuneration policies and practices, have for objective to promote sound and effective risk management of fund managers and the funds they manage.

Moreover, the remuneration policy is compliant with Regulation (EU) 2019/2088 (“*SFDR*”), integrating sustainability risk and ESG criteria in Amundi control framework, with responsibilities spread between the first level of controls performed by the Investment teams and second level of controls performed by the Risk teams, that can verify the compliance with ESG objectives and constraints of a fund at all time.

This policy is incorporated within the framework of the remuneration policy of Amundi reviewed each year by its Remuneration Committee. The latter checked the application of the remuneration policy in relation to the 2022 fiscal year, its compliance with the AIFM/UCITS Directives’ principles and approved the policy applicable for the 2023 exercise at its meeting held on January 30th 2023.

In 2023, the implementation of the Amundi remuneration policy was subject to an internal, central and independent audit, driven by the Amundi Internal Audit.

1.1 Amounts of remuneration paid by the Management companies to its employees

During fiscal year 2023, the total amount of compensation paid by Amundi Asset Management (including fixed, deferred and non-deferred variable compensation) to its employees (1 923 beneficiaries⁽¹⁾) is EUR 207 362 471. This amount is split as follows:

- Total amount of fixed remuneration paid by Amundi Asset Management in 2023: EUR 145 346 571, which represents 70% of the total amount of compensation paid by Amundi Asset Management to its staff, were in the form of fixed remuneration.
- Total amount of variable compensation deferred and non-deferred paid by Amundi Asset Management in 2023: EUR 62 015 900, which represents 30% of the total amount of compensation paid by Amundi Asset Management to its staff, were in this form. The entire staff is eligible for variable compensation.

⁽¹⁾ Number of permanent and fixed-term employees paid during the year.

Additionally, some ‘carried interest’ was paid with respect to fiscal year 2023, and is taken into account in the total amount of bonus referred to here above.

Of the total amount of remuneration paid during the fiscal year (fixed and variable compensation deferred and non-deferred), EUR 21 370 354 were paid to the ‘executives and senior managers’ of Amundi Asset Management (44 beneficiaries), and EUR 15 185 244 were paid to the ‘senior investment managers’ whose professional activities have a material impact on Amundi Asset Management’s risk profile (56 beneficiaries).

1.2 Alignment of remuneration policy and practices with risk profile of the AIFs/UCITS

The Amundi Group has adopted and implemented remuneration policy and practices compliant with the latest norms, rules, and guidelines issued from the regulatory authorities for its management companies (AIFM/UCITS).

The Amundi Group has also identified all of its ‘Identified Staff’, that include all the employees of the Amundi Group having a decision authority on the UCITS/AIFM management companies or the UCITS/AIFs managed and consequently likely to have a significant impact on the performance or the risk profile.

The variable remuneration awarded to the Amundi Group staff takes into account the performance of the employee, its business unit and the Amundi Group as a whole, and is based on quantitative and qualitative criteria as well as the respect of sound risk management rules.

UCIT AMUNDI EURO LIQUIDITY SRI

The criteria taken into account for performance assessment and remuneration award depends on the nature of the employee's functions :

1. Management and selection of AIFs/UCITS functions

Quantitative criteria:

- IR/Sharpe over 1, 3, 5 years
- Gross/absolute/relative performance of the investment strategies (based on GIPS composites) over 1, 3, 5 years, outlook mainly focused on 1 year, adjusted with long-term figures (3,5 years)
- Performance risk adjusted based on IR/Sharpe over 1, 3, 5 years
- Competitive positioning through Morningstar rankings
- Net inflows / Successful requests for proposals, mandates
- Performance fees generation
- ESG rating of the funds according to different providers when applicable (Morningstar, CDP...)
- Respect of ESG beat the benchmark, ESG exclusion policies and climate transition index.

Qualitative criteria:

- Compliance with risk policy, compliance and legal rules
- Quality of management
- Innovation/product development
- Collaboration/Sharing of best practices
- Commercial engagement – including the ESG component of commercial effort and flows
- ESG
 - Compliance with ESG policy and participation to the ESG and net-zero offering
 - Integration of ESG into investment processes
 - Capacity to promote and project ESG knowledge internally and externally
 - Extent of proposition and innovation in the ESG space
 - Demonstrates capacity to manage well the combination of risk return and ESG (the risk and ESG adjusted return).

2. Sales and marketing functions

Quantitative criteria:

- Net inflows, notably on ESG and impact denominated products
- Revenues
- Gross Inflows
- Client base development and retention; product mix
- Number of commercial activities per year, notably prospection activities
- Number of clients approached on their net-zero strategy.

Qualitative criteria:

- Compliance with risk policy, compliance and legal rules
- Joint consideration of Amundi's interests and of client's interests
- Securing/developing the business
- Client satisfaction
- Quality of management
- Cross-functional approach and sharing of best practices
- Entrepreneurial spirit
- Capacity to explain and promote ESG policies and capabilities as well as solutions of the firm.

3. Control and support functions

For control and support functions, performance assessment and remuneration award are independent from the performance of the business they oversee.

Common criteria taken into account are:

- Mainly criteria related to the meeting of objectives linked to their functions (risk management, quality of controls, completion of projects, tools and systems improvement etc.)
- When financial criteria are used, these are mainly related to management/ optimization of expenses.

UCIT AMUNDI EURO LIQUIDITY SRI

The above-mentioned performance criteria, and specifically those applicable to Identified staff in charge of the management of AIFs/UCITS, comply with the applicable regulation as well as to the AIF's/UCITS investment policy. These internal rules of Amundi Group contribute to a sound and effective risk management.

Furthermore, Amundi Group has adopted and implemented, for its entire staff, measures aiming to align remuneration with long-term performance and risks in order to avoid conflicts of interest.

In this respect, notably:

- The deferral policy has been adapted to comply with the AIFM and UCITS V Directives' requirements.
- The deferred portion of variable compensation for identified staff members is awarded at 100% in instruments indexed on the performance of a representative basket of AIFs and/or UCITS funds.
- The actual payment of the deferred portion is linked to the financial situation of Amundi Group, to the continued employment within the group and to a sound and effective risk management over the vesting period.

Fund Compliance with criteria relating to environmental, social, and governance quality (ESG) objectives

- Amundi produces an ESG analysis that generates an ESG rating for over 19,000 companies worldwide¹ on a scale ranging from "A" (for issuers with the best ESG practices) to "G" (for the worst ESG practices). The ESG score obtained measures an issuer's ESG performance: ability to anticipate and manage sustainability risks along with the potential negative impact of its activities on sustainability factors. This analysis is complemented by a policy of active commitment among issuers, in particular on major challenges regarding sustainable development within their sectors.
- As part of its fiduciary responsibility, Amundi has set minimum standards and exclusion policies for critical sustainability issues². The Minimum Standards and Exclusion Policy apply to actively-managed portfolios and passive ESG portfolios, and are always in compliance with applicable laws and regulations.

For passive management, the exclusion policy is applied differently between ESG and non-ESG products³:

- For passive ESG funds: All ESG ETFs and ESG index funds apply Amundi's Minimum Standards and Exclusion Policy
- For passive non-ESG funds: The fiduciary duty consists in replicating an index as faithfully as possible. Limited flexibility is thus afforded to the portfolio manager, who is required to comply with the contractual objectives such that the passive management is entirely in line with the requested benchmark index. Since Amundi's index funds/ETFs replicate standard (non-ESG) benchmarks, they do not apply systematic exclusions beyond those imposed by the regulations.

Normative exclusions related to international conventions:

- anti-personnel mines and cluster munitions⁴,
- chemical and biological weapons⁵,
- depleted uranium weapons,
- violation of the principles of the United Nations Global Compact⁶.

¹ Sources: Amundi 2023.

² For more information, please see Amundi's responsible investment policy, available at www.amundi.fr

³ For a comprehensive view of the scope of Amundi's exclusion policy, please see the tables presented in the annex, page 37 of Amundi's Responsible Investment Policy

⁴ Ottawa (12/03/1997) and Oslo (12/03/2008) Conventions

⁵ Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on their Destruction - 26/03/1972

⁶ Issuers that seriously and repeatedly violate one or more of the ten principles of the United Nations Global Compact without taking credible corrective action

UCIT AMUNDI EURO LIQUIDITY SRI

Sectoral exclusions:

- nuclear weapons,
- thermal coal⁷,
- unconventional hydrocarbons (exploration and production representing more than 30% of turnover)⁸,
- tobacco (*whole tobacco products generating more than 5% of a company's turnover*).

Concerning the sectoral exclusion policies:

• Thermal coal

Since 2016, Amundi has implemented a special sectoral policy leading to the exclusion of certain companies and issuers. Amundi has strengthened its coal exclusion policy (rules and thresholds) every year since 2016, as its phase-out (between 2030 and 2040) is essential to achieve the decarbonisation of our economies. These commitments stem from the Crédit Agricole Group's climate strategy.

Amundi excludes:

- Mining, utilities, and transport infrastructure companies that develop thermal coal projects, have an authorisation and are in the construction phase,
 - Companies that generate more than 20% of their income from thermal coal mining;
- Companies that extract 70 million tonnes or more of thermal coal annually with no intention of reducing these quantities.
- All companies that generate more than 50% of their turnover from the extraction of thermal coal and the production of electricity from thermal coal,
 - All companies that generate between 20% and 50% of their turnover from thermal coal-based electricity generation and thermal coal extraction, and have an insufficient transition track⁹.

• Unconventional hydrocarbons

Investing in companies that are highly exposed to fossil fuels entails increasing social, environmental, and economic risks. Unconventional oil and gas exploration and production are exposed to acute climatic risks. Amundi practices discretionary management in this area and its policy is applicable to all active management strategies and all passive ESG strategies.

Amundi excludes:

- Companies whose activity related to the exploration and production of unconventional hydrocarbons represents more than 30% of turnover.

• Tobacco

Amundi penalises issuers exposed to the tobacco value chain by limiting their ESG rating, and has implemented an exclusion policy for cigarette-producing companies. This policy affects the entire tobacco sector, including suppliers, cigarette manufacturers, and retailers. It is applicable to all active management strategies and all passive ESG strategies on which Amundi practices discretionary management.

Amundi excludes:

- Companies that manufacture whole tobacco products (threshold: turnover greater than 5%), including cigarette manufacturers, as no product can be considered free from child labour.

In addition, the ESG rating of the tobacco sector is capped at E (on a scale from A to G). This policy applies to companies involved in tobacco manufacturing, supply, and distribution activities (threshold: turnover greater than 10%).

• Nuclear weapons

Amundi restricts investments in companies exposed to nuclear weapons and in particular those involved in the production of key components or components dedicated to nuclear weapons.

Amundi excludes:

⁷ Developers, mining, companies deemed too exposed to be able to exit from thermal coal at the expected pace

⁸ Oil sands, shale oil, shale gas

⁹ Amundi conducts an analysis to assess the quality of the phase-out plan

UCIT AMUNDI EURO LIQUIDITY SRI

- Issuers involved in the production, sale, and stockpiling of nuclear weapons from States that have not ratified the Treaty on the Non-Proliferation of Nuclear Weapons, or from States that have ratified it but are not members of NATO,
- Issuers involved in the production of nuclear warheads and/or entire nuclear missiles, or components that have been significantly developed and/or modified for exclusive use in nuclear weapons,
- Issuers that generate more than 5% of their turnover from the production or sale of nuclear weapons (excluding dual-use components and launch platforms).

For more information on how environmental issues (in particular those related to climate change) and corporate and governance (ESG) issues are taken into account in its investment policy, Amundi provides investors with the “Application of Article 29” report available on <https://legroupe.amundi.com> (Legal Documentation section).

SFDR and Taxonomy Regulations

Article 8 – concerning Taxonomy

In accordance with its investment objective and policy, the Fund promotes environmental characteristics as defined under Article 6 of the Taxonomy Regulation. It may partially invest in economic activities that contribute to one or more of the environmental objective(s) set out in Article 9 of the Taxonomy Regulation. However, the Fund does not currently make any commitment in terms of a minimum proportion.

The Taxonomy aims to identify economic activities considered to be environmentally sustainable. The Taxonomy identifies such activities according to their contribution to six major environmental objectives: (i) climate change mitigation, (ii) climate change adaptation, (iii) the sustainable use and protection of water and marine resources, (iv) the transition to a circular economy (waste, prevention, and recycling) (v) pollution prevention and reduction, and (vi) the protection and restoration of biodiversity and ecosystems.

In order to determine an investment’s degree of environmental sustainability, an economic activity is considered to be environmentally sustainable where it contributes substantially to one or more of the environmental objectives set out in the Taxonomy Regulation, where it does no significant harm (the “do no significant harm” or “DNSH” principle) to one or more of these environmental objectives, where it is carried out in accordance with the minimum safeguards provided for in Article 18 of the Taxonomy Regulation and where it complies with the technical screening criteria established by the European Commission in accordance with the Taxonomy Regulation.

In accordance with the current iteration of the Taxonomy Regulation, the Asset Manager ensures that investments do no significant harm to any other environmental objective by implementing exclusion policies covering issuers with controversial environmental and/or social and/or governance practices.

Notwithstanding the preceding, the “Do No Significant Harm” (DNSH) principle is applied solely to the underlying investments incorporating European Union criteria for environmentally sustainable economic activities.

The investments underlying this financial product do not incorporate European Union criteria for environmentally sustainable economic activities.

Although the Fund may already hold investments in economic activities qualified as sustainable activities without currently undertaking to observe a minimum proportion, the Asset Manager will do everything it can to communicate the proportion invested in sustainable activities as soon as it is reasonably possible after the entry into force of the Regulatory Technical Standards (“RTS”) governing the content and presentation of communications in accordance with Articles 8(4), 9(6) and 11(5) of the Disclosure Regulation, as amended by the Taxonomy Regulation.

This effort will be gradually and continuously rolled out, incorporating the requirements of the Taxonomy Regulation in the investment process as soon as it is reasonably possible. This will lead to a minimum level of portfolio alignment with sustainable activities, and this information will then be made available to investors. Until then, the degree of alignment with sustainable activities will not be disclosed to investors.

UCIT AMUNDI EURO LIQUIDITY SRI

Once all the data is available and the appropriate calculation methodologies are finalised, the description of the proportion of underlying investments in sustainable activities will be made available to investors. This information, along with information on the proportion of enabling and transitional activities, will be indicated in a subsequent version of the prospectus.

Article 8 – concerning Article 11 of the SFDR

As required by Article 50 (2 SFDR) of COMMISSION DELEGATED REGULATION, information on the environmental or social characteristics promoted by the financial product is available in an annex to this report.

Auditor's Certification

AMUNDI EURO LIQUIDITY SRI

Mutual Fund

Management Company :

Amundi Asset Management

75015 PARIS

Statutory auditors' report on the financial statements

For the year ended 30th August 2024

To the Shareholders of AMUNDI EURO LIQUIDITY SRI

Opinion

In compliance with the engagement entrusted to us by your Management Company, we have audited the accompanying financial statements of AMUNDI EURO LIQUIDITY SRI for the year ended 30th August 2024.

In our opinion, the financial statements give a true and fair view of the assets and liabilities and of the financial position of the Fund as at 28th March 2024 and of the results of its operations for the year then ended in accordance with French accounting principles.

Basis for Opinion

Audit Framework

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the "Statutory Auditors' Responsibilities for the Audit of the Financial Statements" section of our report.

Independence

We conducted our audit engagement in compliance with independence requirements of the French Commercial Code (code de commerce) and the French Code of Ethics (code de déontologie) for statutory auditors, for the period from 1st september 2023 to the date of our report.

Justification of assessments

In accordance with the requirements of Articles L.823-9 and R.823-7 of the French Commercial Code (Code de commerce) relating to the justification of our assessments, we inform you of the following assessments that, in our professional judgment, were of most significance in our audit of the financial statements of the current period.

These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on specific items of the financial statements.

Verification of the Management Report established by the Management Company

We have also performed, in accordance with professional standards applicable in France, the specific verifications required by French law.

We have no matters to report as to the fair presentation and the consistency with the financial statements of the information given in the management report of the fund and in the other documents provided to Unitholders with respect to the financial position and the financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with French accounting principles, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is expected to liquidate the Fund or to cease operations.

The financial statements were approved by the management company.

Statutory Auditors' Responsibilities for the Audit of the Financial Statements

Our role is to issue a report on the financial statements. Our objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As specified in Article L. 823-10-1 of the French Commercial Code (code de commerce), our statutory audit does not include assurance on the viability of the Fund or the quality of management of the affairs of the Fund.

As part of an audit conducted in accordance with professional standards applicable in France, the statutory auditor exercises professional judgment throughout the audit and furthermore:

- Identifies and assesses the risks of material misstatement of the financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence considered to be sufficient and appropriate to provide a basis for his opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management in the financial statements.
- Assesses the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. This assessment is based on the audit evidence obtained up to the date of his audit report. However, future events or conditions may cause the Company to cease to continue as a going concern. If the statutory auditor concludes that a material uncertainty exists, there is a requirement to draw attention in the audit report to the related disclosures in the financial statements or, if such disclosures are not provided or inadequate, to modify the opinion expressed therein.

- Evaluates the overall presentation of the financial statements and assesses whether these statements represent the underlying transactions and events in a manner that achieves fair presentation

Notes to the annual accounts

1. Accounting rules and methods

The annual financial statements are presented in the form prescribed by ANC regulation 2014-01, as amended.

The following general accounting principles apply:

- true and fair view, comparability, and going concern,
- compliance, accuracy,
- prudence,
- consistency of accounting methods from one year to the next.

Revenues from fixed-income securities are recognised on the basis of accrued interest.

Securities bought and sold are recognised excluding costs.

The portfolio's accounting currency is the euro.

The financial year lasts 12 months.

Asset valuation rules

Financial instruments are recognised according to the historical cost method and are entered in the balance sheet at their present value, which is determined by the last-known market value or, if no market exists, by any external means or through the use of financial models.

Differences between the current values used to calculate net asset value and the historical costs of transferable securities at the time they are added to the portfolio are recorded under "valuation differentials". Securities that are not denominated in the portfolio currency are valued in accordance with the principle described below and then converted into the portfolio currency at the exchange rate applicable on the day of the valuation.

Deposits:

Deposits with a remaining term of up to 3 months are valued according to the straight-line method.

Equities, bonds, and other securities traded on a regulated or similar market:

Equities and other securities traded on a regulated or similar market are valued at their opening price on the day known as "D" on each market, depending on the market's region:

- Asia: closing price on trading day "D"
- Europe: opening price on trading day "D"
- Americas: closing price on trading day "D-1".

Bonds and equivalent securities are measured at the closing price supplied by various financial service providers.

Interest accrued on bonds and similar securities is calculated up to the net asset value date.

Equities, bonds, and other securities not traded on a regulated or similar market:

Securities not traded on a regulated market are valued under the responsibility of the asset manager using methods based on the asset value and the yield, taking into consideration the prices applied in recent significant transactions.

UCIT AMUNDI EURO LIQUIDITY SRI

Negotiable debt securities:

The assets of Amundi's money market funds are valued on a daily basis. They are valued using market prices wherever possible, and, where market prices are unavailable, using a market spread. In order to validate the relevance of the prices used to determine asset valuations, the discrepancy between recorded prices and selling prices is regularly measured by the Risk Department.

UCI holdings:

UCI units or shares are measured at their last known net asset value.

Temporary securities transactions:

Securities borrowed under repurchase agreements are recorded as assets under "Receivables representing securities held under repurchase agreements" for the amount specified in the contract plus accrued interest receivable.

Securities lent under repurchase agreements are booked in the long portfolio at their present value. The liability representing these securities is recorded in the short portfolio at the value fixed in the contract plus accrued interest payable.

Lent securities are valued at their present value and are recorded as assets under "Receivables representing lent securities" at their present value plus accrued interest receivable.

Borrowed securities are booked to assets under "Borrowed securities" at the amount provided for in the agreement, and to liabilities under "Payables representing borrowed securities" at the amount provided for in the agreement, plus accrued interest payable.

Forward financial instruments:

Forward financial instruments traded on a regulated or equivalent market:

Forward financial instruments traded on a regulated or similar market are measured as follows for the calculation of net asset value at trading day "D":

- Asia: at the daily clearing price
- Europe: at the opening price on day "D"
- Americas: at the clearing price on day "D-1".

Forward financial instruments not traded on a regulated or similar market:

Swaps:

Interest rate and/or currency swaps are marked to market based on the price calculated by discounting future interest flows at the market interest and/or exchange rates. This price is adjusted to take into account the issuer's creditworthiness risk.

Index swaps are valued using an actuarial method on the basis of a reference interest rate provided by the counterparty.

Other swaps are either marked to market or assessed at an estimated value using a method established by the asset manager.

Off-balance-sheet commitments:

Futures appear in off-balance-sheet commitments for their market value at the price used in the portfolio.

Options are translated into the equivalent underlying asset.

Commitments on swaps are shown at their nominal value or, in the absence of a nominal value, for an equivalent amount.

UCIT AMUNDI EURO LIQUIDITY SRI

Management fees

Management fees and operating costs include all UCI-related costs: financial management, administrative, accounting, custody, distribution, auditing fees, etc.

These fees are charged to the UCI's profit and loss account.

Management fees do not include transaction fees. Further information about the fees charged to the UCI can be found in the prospectus.

They are recorded on a pro-rata basis at each net asset value calculation.

The aggregate of these fees complies with the maximum fee rate as a percentage of net asset value indicated in the prospectus or the fund rules:

FR0013518610 - AMUNDI EURO LIQUIDITY SRI S-C unit: Maximum fee rate 0.10% (incl. tax).
FR0013297561 - AMUNDI EURO LIQUIDITY SRI R-C unit: Maximum fee rate 0.50% (incl. tax).
FR0013221199 - AMUNDI EURO LIQUIDITY SRI M-C unit: Maximum fee rate 0.50% (incl. tax).
FR0013095312 - AMUNDI EURO LIQUIDITY SRI I2-C unit: Maximum fee rate 0.50% (incl. tax).
FR0011799915 - AMUNDI EURO LIQUIDITY SRI E-C unit: Maximum fee rate 0.50% (incl. tax).
FR0011630557 - AMUNDI EURO LIQUIDITY SRI P-C unit: Maximum fee rate 0.50% (incl. tax).
FR0010251660 - AMUNDI EURO LIQUIDITY SRI IC-C unit: Maximum fee rate 0.50% (incl. tax).
FR0014004TR0 - AMUNDI EURO LIQUIDITY SRI BDF-D unit: Maximum fee rate 0.45% (incl. tax).
FR0014005XM0 - AMUNDI EURO LIQUIDITY SRI Z-C unit: Maximum fee rate 1.00% (incl. tax).
FR0014005U84 - AMUNDI EURO LIQUIDITY SRI R1-C unit: Maximum fee rate 0.50% (incl. tax).

Performance fee:

The performance fee is calculated for each unit concerned each time the net asset value is calculated. It is based on a comparison (hereinafter the "Comparison") between:

The net assets calculated per unit (before deduction of the performance fee), and

The reference asset (hereinafter the "Reference Asset"), representing and replicating the net assets calculated per unit (before deduction of the performance fee) on the 1st day of the observation period, adjusted for subscriptions/redemptions at each valuation, to which is applied the performance of the reference indicator (Capitalised €STR).

Starting on 1 July 2022, the Comparison is made over an observation period of at most five years, whose anniversary date corresponds to the last NAV calculation date for June. All observation periods starting from 1 July 2022 on will have the following new terms and conditions:

During the lifetime of the unit, a new observation period of at most five years begins:

If the annual provision is paid on an anniversary date.

In the event of cumulative under-performance observed at the end of a five year period.

In such case, no under-performance beyond 5 years will be considered during the new observation period; conversely, all under-performance generated over the last 5 years will still be considered.

The performance fee will be 30% of the difference between the net assets calculated per unit (before the deduction of the performance fee) and the Reference Asset if all the following conditions are met:

The difference is positive.

the relative performance of the unit compared to the Benchmark NAV, since the beginning of the observation period defined above, is positive or zero.

Under-performance during the past five years must thus be offset before a new provision can be recorded.

UCIT AMUNDI EURO LIQUIDITY SRI

This fee will be provisioned when the Net Asset Value is calculated.

For the current observation period, the performance fee rate is:

- 10% for the E-C unit;
- 10% for the I2-C unit;
- 10% for the IC-C unit;
- 0 for the M-C unit;
- 10% for the P-C unit;
- 10% for the R-C unit;
- 10% for the S-C unit;
- 10% for the Z-C unit.

In the event of redemptions during the observation period, the share of the provision recorded for the number of units redeemed permanently accrues to the asset manager. It may be paid to the asset manager on each anniversary date.

If, during the observation period, the net assets calculated per unit (before deduction of the performance fee) is below that of the Reference Assets defined above, the performance fee will be zero, and the provision will be reversed when the Net Asset Value is calculated. Provision reversals are capped at the level of previous allocations.

During the observation period, all provisions, as defined above, become payable on the anniversary date and will be paid to the asset manager.

The Asset Manager is paid the performance fee even if the performance of the unit over the observation period is negative, as long as it remains higher than the performance of the Reference Assets.

Allocation of amounts available for distribution

Definition of amounts available for distribution

Amounts available for distribution consist of:

Income:

Net income added to retained earnings, plus or minus the balance of accrued income as appropriate.

The net income for the reporting period is equal to the amount of interest, arrears, dividends, premiums and bonuses, remuneration, and any income arising from the UCI portfolio securities, plus income from any amounts temporarily available, less management fees and borrowing costs.

Capital gains and losses:

Realised capital gains, net of costs, less realised capital losses, net of costs, recorded during the financial year, plus net capital gains of the same nature recorded in previous financial years that were not distributed or accumulated, plus or minus the balance of the capital gains adjustment account.

UCIT AMUNDI EURO LIQUIDITY SRI

Allocation of amounts available for distribution:

Unit(s)	Allocation of net income	Allocation of net capital gains or losses realized
AMUNDI EURO LIQUIDITY SRI BDF-D unit	Distributed	Capitalisation, and/or Distribution, and/or Carried forward at the asset manager's discretion
AMUNDI EURO LIQUIDITY SRI E-C unit	Capitalised	Capitalised
AMUNDI EURO LIQUIDITY SRI I2-C unit	Capitalised	Capitalised

Note(s)

Product

AMUNDI EURO LIQUIDITY SRI - IC (C)

Management Company: Amundi Asset Management (hereinafter: "we" or the "Management Company"), a member of the Amundi Group of companies.
FR0010251660 - Currency: EUR

Management Company's website: www.amundi.fr

Call +33 143233030 for more information.

The AMF ("Autorité des Marchés Financiers") is responsible for supervising Amundi Asset Management in relation to this Key Information Document.

Amundi Asset Management is authorised in France under number GP-04000036 and regulated by the AMF.

Key Information Document production date: 07/06/2024.

What is this product?

Type: Units of AMUNDI EURO LIQUIDITY SRI, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

Term: The Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): Standard Variable Net Asset Value Money Market UCI

Objectives: By subscribing to AMUNDI EURO LIQUIDITY SRI, you are investing in money market instruments with a maximum maturity of two years.

The management objective of the Fund is to outperform its capitalised €STR Benchmark Index, the representative index of the Eurozone currency rate, less ongoing charges, while incorporating ESG criteria into the selection process and analysis of the Fund's securities. However, in periods of negative returns on the money market, the Fund's return may be negatively affected. In addition, after deducting ongoing charges, the performance of the Fund may be less than that of the capitalised €STR. The Fund incorporates ESG (Environmental, Social and Governance) criteria when analysing and selecting securities as a complement to financial criteria (liquidity, maturity, profitability and quality). The non-financial analysis results in an ESG rating for each issuer on a scale ranging from A (highest rating) to G (lowest rating). At least 90% of securities in the portfolio have an ESG rating.

In addition, the Fund implements an SRI strategy based on a combination of approaches:

- "rating improvement" approach (the portfolio's average ESG rating must be higher than the ESG rating of the investment universe after eliminating at least 20% of the lowest-rated securities);

- regulatory and sector exclusion approach: exclusion of issuers rated F and G; exclusions of controversial weapons; exclusion of businesses that severely and repeatedly violate one or more of the ten principles of the United Nations Global Compact; and sector exclusions for coal and tobacco according to the current Amundi exclusion policy.

- Best-in-Class which aims to give priority to issuers that are leaders in their business sectors based on ESG criteria identified by the Management Company's team of non-financial analysts.

The Best-in-Class approach does not exclude any business sectors a priori; the Fund may therefore be exposed to certain controversial sectors. To limit the potential non-financial risks of these sectors, the Fund applies the exclusions set out above, coupled with a commitment policy that aims to promote dialogue with issuers and support them in improving their ESG practices. In order to achieve this, the management team selects high-quality money market instruments in euro or other currencies in consideration of their residual life. These securities are selected from within a previously determined investment universe according to an internal risk assessment and monitoring process. In order to assess the credit quality of these instruments, the management company may refer to investment grade ratings from recognised ratings agencies it deems the most relevant, on a non-exclusive basis, when purchasing an instrument; it shall however endeavour to avoid any mechanical dependence on these ratings throughout the period of time in which the securities are held. Securities held in other currencies shall be fully hedged against currency risk. By way of derogation, the 5% limit of the UCI assets may be increased to 100% of its assets when the Fund invests in money market instruments issued or guaranteed individually or jointly by certain sovereign, quasi-sovereign or supranational entities of the European Union as outlined by European Regulation (EU) 2017/1131 of the European Parliament and Council of 14 June 2017. The fund may make temporary purchases and sales of securities. Eligible forward financial instruments may be used for hedging purposes. The UCI is actively managed. The index is used a posteriori as a performance comparison indicator. The management strategy is discretionary and has no index-related constraints. The mutual fund is classified under article 8 of Regulation (EU) 2019/2088 on the publication of sustainability information in the financial services sector (the "Disclosure Regulation").

Intended retail investors: This product is intended for investors with a basic knowledge and little or no experience of investing in funds, who are seeking to increase the value of their investment while preserving all or part of their invested capital over the recommended holding period and who are prepared to assume a medium level of risk on their initial capital.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.com and/or in the prospectus).

Redemption and transaction: Units may be sold (redeemed) daily as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Euro Liquidity SRI prospectus.

Distribution Policy: As this is a non-distributing unit class, investment income is reinvested.

More information: Further information regarding this Fund, including the prospectus and financial reports, is available free of charge on request from:

Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of the Fund is available on www.amundi.fr.

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for more than 1 month. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Amundi Euro Liquidity SRI prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: more than 1 month Investment EUR 10,000		
Scenarios		If you exit after more than 1 month
Minimum	There is no minimum guaranteed return if you exit before more than 1 month. You could lose some or all of your investment.	
Stress Scenario	What you might get back after costs	€9,860
	Average return each year	-1.4%
Unfavourable Scenario	What you might get back after costs	€9,890
	Average return each year	-1.1%
Moderate Scenario	What you might get back after costs	€9,900
	Average return each year	-1.0%
Favourable Scenario	What you might get back after costs	€9,940
	Average return each year	-0.6%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Unfavourable Scenario: This type of scenario occurred for an investment made between 28/02/2022 and 31/03/2022.

Moderate scenario: This type of scenario occurred for an investment made between 29/06/2017 and 31/07/2017.

Favourable scenario: This type of scenario occurred for an investment made between 28/12/2023 and 31/01/2024

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

	Investment EUR 10,000
Scenarios	If you exit after more than 1 month*
Total costs	€101
Cost impact**	1.0%

* Recommended holding period.

** This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products. These figures include the maximum distribution fee that the person selling you the product may charge (1.00% of amount invested/EUR 100). This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

	One-off costs upon entry or exit	If you exit after more than 1 month
Entry costs	This includes distribution costs of 1.00% of the amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to EUR 100
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0.00
	Ongoing costs taken each year	
Management fees and other administrative or operating costs	0.11% of the value of your investment per year. This percentage is based on the actual costs over the last year.	EUR 0.94
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on the volume of our purchases and sales.	EUR 0.46
	Incidental costs taken under specific conditions	
Performance fees	30.00% of the annual outperformance of the reference asset. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last five years must be recovered before any new performance fee accrual. The actual amount will vary depending on how well your investment performs. The aforementioned estimate of total costs includes the average over the past five years. The performance fee is paid even if the performance of the unit over the observation period is negative, while remaining higher than the performance of the Reference Asset.	EUR 0.02

How long should I hold it and can I take money out early?

Recommended holding period: more than 1 month. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 1 month. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Redemption orders must be received before 14:00 (Paris time) on the net asset value calculation date. Please refer to the Amundi Euro Liquidity SRI prospectus for more information about redemptions.

How can I complain?

If you have any complaints, you may:

- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
- E-mail to complaints@amundi.com

In the case of a complaint you must clearly indicate your contact details (name, address, phone number or email address) and provide a brief explanation of your complaint. More information is available on our website www.amundi.fr.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

You may find the prospectus, key information documents, notices to investors, financial reports, and further information documents relating to the product including various published policies of the product on our website www.amundi.fr. You may also request a copy of such documents at the registered office of the Management Company.

When this product is used as a unit-linked vehicle in a life insurance or capitalisation contract, additional information about this contract, such as the costs of the contract, which are not included in the costs mentioned in this document, the contact details for complaints and the procedures in the event of default of the insurance company are provided in the key information document of the contract, which must be provided to you by your insurer or broker or any other insurance intermediary in compliance with their legal obligation.

Performance scenarios: You can find previous performance scenarios updated on a monthly basis at www.amundi.fr.

Product

AMUNDI EURO LIQUIDITY SRI - P (C)

Management Company: Amundi Asset Management (hereinafter: "we" or the "Management Company"), a member of the Amundi Group of companies.
FR0011630557 - Currency: EUR

Management Company's website: www.amundi.fr

Call +33 143233030 for more information.

The AMF ("Autorité des Marchés Financiers") is responsible for supervising Amundi Asset Management in relation to this Key Information Document.

Amundi Asset Management is authorised in France under number GP-04000036 and regulated by the AMF.

Key Information Document production date: 01/08/2024.

What is this product?

Type: Units of AMUNDI EURO LIQUIDITY SRI, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

Term: The Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): Standard Variable Net Asset Value Money Market UCI

Objectives: By subscribing to AMUNDI EURO LIQUIDITY SRI, you are investing in money market instruments with a maximum maturity of two years.

The management objective of the Fund is to outperform its capitalised €STR Benchmark Index, the representative index of the Eurozone currency rate, less ongoing charges, while incorporating ESG criteria into the selection process and analysis of the Fund's securities. However, in periods of negative returns on the money market, the Fund's return may be negatively affected. In addition, after deducting ongoing charges, the performance of the Fund may be less than that of the capitalised €STR. The Fund incorporates ESG (Environmental, Social and Governance) criteria when analysing and selecting securities as a complement to financial criteria (liquidity, maturity, profitability and quality). The non-financial analysis results in an ESG rating for each issuer on a scale ranging from A (highest rating) to G (lowest rating). At least 90% of securities in the portfolio have an ESG rating.

In addition, the Fund implements an SRI strategy based on a combination of approaches:

- "rating improvement" approach (the portfolio's average ESG rating must be higher than the ESG rating of the investment universe after eliminating at least 20% of the lowest-rated securities);

- regulatory and sector exclusion approach: exclusion of issuers rated F and G; exclusions of controversial weapons; exclusion of businesses that severely and repeatedly violate one or more of the ten principles of the United Nations Global Compact; and sector exclusions for coal and tobacco according to the current Amundi exclusion policy.

- Best-in-Class which aims to give priority to issuers that are leaders in their business sectors based on ESG criteria identified by the Management Company's team of non-financial analysts.

The Best-in-Class approach does not exclude any business sectors a priori; the Fund may therefore be exposed to certain controversial sectors. To limit the potential non-financial risks of these sectors, the Fund applies the exclusions set out above, coupled with a commitment policy that aims to promote dialogue with issuers and support them in improving their ESG practices. In order to achieve this, the management team selects high-quality money market instruments in euro or other currencies in consideration of their residual life. These securities are selected from within a previously determined investment universe according to an internal risk assessment and monitoring process. In order to assess the credit quality of these instruments, the management company may refer to investment grade ratings from recognised ratings agencies it deems the most relevant, on a non-exclusive basis, when purchasing an instrument; it shall however endeavour to avoid any mechanical dependence on these ratings throughout the period of time in which the securities are held. Securities held in other currencies shall be fully hedged against currency risk. By way of derogation, the 5% limit of the UCI assets may be increased to 100% of its assets when the Fund invests in money market instruments issued or guaranteed individually or jointly by certain sovereign, quasi-sovereign or supranational entities of the European Union as outlined by European Regulation (EU) 2017/1131 of the European Parliament and Council of 14 June 2017. The fund may make temporary purchases and sales of securities. Eligible forward financial instruments may be used for hedging purposes. The UCI is actively managed. The index is used a posteriori as a performance comparison indicator. The management strategy is discretionary and has no index-related constraints. The mutual fund is classified under article 8 of Regulation (EU) 2019/2088 on the publication of sustainability information in the financial services sector (the "Disclosure Regulation").

Intended retail investors: This product is intended for investors with a basic knowledge and little or no experience of investing in funds, who are seeking to increase the value of their investment while preserving all or part of their invested capital over the recommended holding period and who are prepared to assume a medium level of risk on their initial capital.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.com and/or in the prospectus).

Redemption and transaction: Units may be sold (redeemed) daily as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Euro Liquidity SRI prospectus.

Distribution Policy: As this is a non-distributing unit class, investment income is reinvested.

More information: Further information regarding this Fund, including the prospectus and financial reports, is available free of charge on request from:

Amundi Asset Management, 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of the Fund is available on www.amundi.fr.

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for more than 1 month.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Amundi Euro Liquidity SRI prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: more than 1 month		
Investment EUR 10,000		
Scenarios		If you exit after more than 1 month
Minimum	There is no minimum guaranteed return if you exit before more than 1 month. You could lose some or all of your investment.	
Stress Scenario	What you might get back after costs	€9,860
	Average return each year	-1.4%
Unfavourable Scenario	What you might get back after costs	€9,890
	Average return each year	-1.1%
Moderate Scenario	What you might get back after costs	€9,900
	Average return each year	-1.0%
Favourable Scenario	What you might get back after costs	€9,940
	Average return each year	-0.6%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Unfavourable Scenario: This type of scenario occurred for an investment made between 28/02/2022 and 31/03/2022.

Moderate scenario: This type of scenario occurred for an investment made between 31/08/2017 and 28/09/2017.

Favourable scenario: This type of scenario occurred for an investment made between 28/12/2023 and 31/01/2024

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

Investment EUR 10,000	
Scenarios	If you exit after more than 1 month*
Total costs	€102
Cost impact**	1.0%

* Recommended holding period.

** This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products. These figures include the maximum distribution fee that the person selling you the product may charge (1.00% of amount invested/EUR 100). This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after more than 1 month
Entry costs	This includes distribution costs of 1.00% of the amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to EUR 100
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0.00
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.30% of the value of your investment per year. This percentage is based on the actual costs over the last year.	EUR 2.47
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on the volume of our purchases and sales.	EUR 0.46
Incidental costs taken under specific conditions		
Performance fees	30.00% of the annual outperformance of the reference asset. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last five years must be recovered before any new performance fee accrual. The actual amount will vary depending on how well your investment performs. The aforementioned estimate of total costs includes the average over the past five years. The performance fee is paid even if the performance of the unit over the observation period is negative, while remaining higher than the performance of the Reference Asset.	EUR 0.00

How long should I hold it and can I take money out early?

Recommended holding period: more than 1 month. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 1 month. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Redemption orders must be received before 14:00 on the net asset value calculation date. Please refer to the Amundi Euro Liquidity SRI prospectus for more information about redemptions.

How can I complain?

If you have any complaints, you may:

- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
- E-mail to complaints@amundi.com

In the case of a complaint you must clearly indicate your contact details (name, address, phone number or email address) and provide a brief explanation of your complaint. More information is available on our website www.amundi.fr.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

You may find the prospectus, key information documents, notices to investors, financial reports, and further information documents relating to the product including various published policies of the product on our website www.amundi.fr. You may also request a copy of such documents at the registered office of the Management Company.

When this product is used as a unit-linked vehicle in a life insurance or capitalisation contract, additional information about this contract, such as the costs of the contract, which are not included in the costs mentioned in this document, the contact details for complaints and the procedures in the event of default of the insurance company are provided in the key information document of the contract, which must be provided to you by your insurer or broker or any other insurance intermediary in compliance with their legal obligation.

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for more than 1 month. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Amundi Euro Liquidity SRI prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: more than 1 month		
Investment EUR 10,000		
Scenarios		If you exit after more than 1 month
Minimum	There is no minimum guaranteed return if you exit before more than 1 month. You could lose some or all of your investment.	
Stress Scenario	What you might get back after costs	€9,860
	Average return each year	-1.4%
Unfavourable Scenario	What you might get back after costs	€9,890
	Average return each year	-1.1%
Moderate Scenario	What you might get back after costs	€9,900
	Average return each year	-1.0%
Favourable Scenario	What you might get back after costs	€9,940
	Average return each year	-0.6%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Unfavourable Scenario: This type of scenario occurred for an investment made between 28/02/2022 and 31/03/2022.

Moderate scenario: This type of scenario occurred for an investment made between 29/06/2017 and 31/07/2017.

Favourable scenario: This type of scenario occurred for an investment made between 28/12/2023 and 31/01/2024

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

	Investment EUR 10,000
Scenarios	If you exit after more than 1 month*
Total costs	€103
Cost impact**	1.0%

* Recommended holding period.

** This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products. These figures include the maximum distribution fee that the person selling you the product may charge (1.00% of amount invested/EUR 100). This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

	One-off costs upon entry or exit	If you exit after more than 1 month
Entry costs	This includes distribution costs of 1.00% of the amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to EUR 100
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0.00
	Ongoing costs taken each year	
Management fees and other administrative or operating costs	0.33% of the value of your investment per year. This percentage is based on the actual costs over the last year.	EUR 2.76
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on the volume of our purchases and sales.	EUR 0.46
	Incidental costs taken under specific conditions	
Performance fees	30.00% of the annual outperformance of the reference asset. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last five years must be recovered before any new performance fee accrual. The actual amount will vary depending on how well your investment performs. The aforementioned estimate of total costs includes the average over the past five years. The performance fee is paid even if the performance of the unit over the observation period is negative, while remaining higher than the performance of the Reference Asset.	EUR 0.01

How long should I hold it and can I take money out early?

Recommended holding period: more than 1 month. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 1 month. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Redemption orders must be received before 14:00 (Paris time) on the net asset value calculation date. Please refer to the Amundi Euro Liquidity SRI prospectus for more information about redemptions.

The AMF ("Autorité des Marchés Financiers") is responsible for supervising Amundi Asset Management in relation to this Key Information Document.

Amundi Asset Management is authorised in France under number GP-04000036 and regulated by the AMF.

Key Information Document production date: 07/06/2024.

What is this product?

Type: Units of AMUNDI EURO LIQUIDITY SRI, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

Term: The Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): Standard Variable Net Asset Value Money Market UCI

Objectives: By subscribing to AMUNDI EURO LIQUIDITY SRI, you are investing in money market instruments with a maximum maturity of two years.

The management objective of the Fund is to outperform its capitalised €STR Benchmark Index, the representative index of the Eurozone currency rate, less ongoing charges, while incorporating ESG criteria into the selection process and analysis of the Fund's securities. However, in periods of negative returns on the money market, the Fund's return may be negatively affected. In addition, after deducting ongoing charges, the performance of the Fund may be less than that of the capitalised €STR. The Fund incorporates ESG (Environmental, Social and Governance) criteria when analysing and selecting securities as a complement to financial criteria (liquidity, maturity, profitability and quality). The non-financial analysis results in an ESG rating for each issuer on a scale ranging from A (highest rating) to G (lowest rating). At least 90% of securities in the portfolio have an ESG rating.

In addition, the Fund implements an SRI strategy based on a combination of approaches:

- "rating improvement" approach (the portfolio's average ESG rating must be higher than the ESG rating of the investment universe after eliminating at least 20% of the lowest-rated securities);

- regulatory and sector exclusion approach: exclusion of issuers rated F and G; exclusions of controversial weapons; exclusion of businesses that severely and repeatedly violate one or more of the ten principles of the United Nations Global Compact; and sector exclusions for coal and tobacco according to the current Amundi exclusion policy.

- Best-in-Class which aims to give priority to issuers that are leaders in their business sectors based on ESG criteria identified by the Management Company's team of non-financial analysts.

The Best-in-Class approach does not exclude any business sectors a priori; the Fund may therefore be exposed to certain controversial sectors. To limit the potential non-financial risks of these sectors, the Fund applies the exclusions set out above, coupled with a commitment policy that aims to promote dialogue with issuers and support them in improving their ESG practices. In order to achieve this, the management team selects high-quality money market instruments in euro or other currencies in consideration of their residual life. These securities are selected from within a previously determined investment universe according to an internal risk assessment and monitoring process. In order to assess the credit quality of these instruments, the management company may refer to investment grade ratings from recognised ratings agencies it deems the most relevant, on a non-exclusive basis, when purchasing an instrument; it shall however endeavour to avoid any mechanical dependence on these ratings throughout the period of time in which the securities are held. Securities held in other currencies shall be fully hedged against currency risk. By way of derogation, the 5% limit of the UCI assets may be increased to 100% of its assets when the Fund invests in money market instruments issued or guaranteed individually or jointly by certain sovereign, quasi-sovereign or supranational entities of the European Union as outlined by European Regulation (EU) 2017/1131 of the European Parliament and Council of 14 June 2017. The fund may make temporary purchases and sales of securities. Eligible forward financial instruments may be used for hedging purposes. The UCI is actively managed. The index is used a posteriori as a performance comparison indicator. The management strategy is discretionary and has no index-related constraints. The mutual fund is classified under article 8 of Regulation (EU) 2019/2088 on the publication of sustainability information in the financial services sector (the "Disclosure Regulation").

Intended retail investors: This product is intended for investors with a basic knowledge and little or no experience of investing in funds, who are seeking to increase the value of their investment while preserving all or part of their invested capital over the recommended holding period and who are prepared to assume a medium level of risk on their initial capital.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.com and/or in the prospectus).

Redemption and transaction: Units may be sold (redeemed) daily as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Euro Liquidity SRI prospectus.

Distribution Policy: As this is a non-distributing unit class, investment income is reinvested.

More information: Further information regarding this Fund, including the prospectus and financial reports, is available free of charge on request from:

Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of the Fund is available on www.amundi.fr.

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for more than 1 month.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Amundi Euro Liquidity SRI prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: more than 1 month		
Investment EUR 10,000		
Scenarios		If you exit after more than 1 month
Minimum	There is no minimum guaranteed return if you exit before more than 1 month. You could lose some or all of your investment.	
Stress Scenario	What you might get back after costs	€9,860
	Average return each year	-1.4%
Unfavourable Scenario	What you might get back after costs	€9,890
	Average return each year	-1.1%
Moderate Scenario	What you might get back after costs	€9,900
	Average return each year	-1.0%
Favourable Scenario	What you might get back after costs	€9,940
	Average return each year	-0.6%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Unfavourable Scenario: This type of scenario occurred for an investment made between 28/02/2022 and 31/03/2022.

Moderate scenario: This type of scenario occurred for an investment made between 29/06/2017 and 31/07/2017.

Favourable scenario: This type of scenario occurred for an investment made between 28/12/2023 and 31/01/2024

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

Investment EUR 10,000	
Scenarios	If you exit after more than 1 month*
Total costs	€101
Cost impact**	1.0%

* Recommended holding period.

** This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products. These figures include the maximum distribution fee that the person selling you the product may charge (1.00% of amount invested/EUR 100). This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after more than 1 month
Entry costs	This includes distribution costs of 1.00% of the amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to EUR 100
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0.00
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.08% of the value of your investment per year. This percentage is based on the actual costs over the last year.	EUR 0.65
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on the volume of our purchases and sales.	EUR 0.46
Incidental costs taken under specific conditions		
Performance fees	30.00% of the annual outperformance of the reference asset. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last five years must be recovered before any new performance fee accrual. The actual amount will vary depending on how well your investment performs. The aforementioned estimate of total costs includes the average over the past five years. The performance fee is paid even if the performance of the unit over the observation period is negative, while remaining higher than the performance of the Reference Asset.	EUR 0.02

How long should I hold it and can I take money out early?

Recommended holding period: more than 1 month. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 1 month. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Redemption orders must be received before 14:00 (Paris time) on the net asset value calculation date. Please refer to the Amundi Euro Liquidity SRI prospectus for more information about redemptions.

How can I complain?

If you have any complaints, you may:

- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
- E-mail to complaints@amundi.com

In the case of a complaint you must clearly indicate your contact details (name, address, phone number or email address) and provide a brief explanation of your complaint. More information is available on our website www.amundi.fr.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

You may find the prospectus, key information documents, notices to investors, financial reports, and further information documents relating to the product including various published policies of the product on our website www.amundi.fr. You may also request a copy of such documents at the registered office of the Management Company.

When this product is used as a unit-linked vehicle in a life insurance or capitalisation contract, additional information about this contract, such as the costs of the contract, which are not included in the costs mentioned in this document, the contact details for complaints and the procedures in the event of default of the insurance company are provided in the key information document of the contract, which must be provided to you by your insurer or broker or any other insurance intermediary in compliance with their legal obligation.

Past performance: You can download the past performance of the Fund over the last ten years at www.amundi.fr.

Performance scenarios: You can find previous performance scenarios updated on a monthly basis at www.amundi.fr.

Product

AMUNDI EURO LIQUIDITY SRI - M (C)

Management Company: Amundi Asset Management (hereinafter: "we" or the "Management Company"), a member of the Amundi Group of companies.
FR0013221199 - Currency: EUR

Management Company's website: www.amundi.fr

Call +33 143233030 for more information.

The AMF ("Autorité des Marchés Financiers") is responsible for supervising Amundi Asset Management in relation to this Key Information Document.

Amundi Asset Management is authorised in France under number GP-04000036 and regulated by the AMF.

Key Information Document production date: 07/06/2024.

What is this product?

Type: Units of AMUNDI EURO LIQUIDITY SRI, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

Term: The Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): Standard Variable Net Asset Value Money Market UCI

Objectives: By subscribing to AMUNDI EURO LIQUIDITY SRI, you are investing in money market instruments with a maximum maturity of two years.

The management objective of the Fund is to outperform its capitalised €STR Benchmark Index, the representative index of the Eurozone currency rate, less ongoing charges, while incorporating ESG criteria into the selection process and analysis of the Fund's securities. However, in periods of negative returns on the money market, the Fund's return may be negatively affected. In addition, after deducting ongoing charges, the performance of the Fund may be less than that of the capitalised €STR. The Fund incorporates ESG (Environmental, Social and Governance) criteria when analysing and selecting securities as a complement to financial criteria (liquidity, maturity, profitability and quality). The non-financial analysis results in an ESG rating for each issuer on a scale ranging from A (highest rating) to G (lowest rating). At least 90% of securities in the portfolio have an ESG rating.

In addition, the Fund implements an SRI strategy based on a combination of approaches:

- "rating improvement" approach (the portfolio's average ESG rating must be higher than the ESG rating of the investment universe after eliminating at least 20% of the lowest-rated securities);

- regulatory and sector exclusion approach: exclusion of issuers rated F and G; exclusions of controversial weapons; exclusion of businesses that severely and repeatedly violate one or more of the ten principles of the United Nations Global Compact; and sector exclusions for coal and tobacco according to the current Amundi exclusion policy.

- Best-in-Class which aims to give priority to issuers that are leaders in their business sectors based on ESG criteria identified by the Management Company's team of non-financial analysts.

The Best-in-Class approach does not exclude any business sectors a priori; the Fund may therefore be exposed to certain controversial sectors. To limit the potential non-financial risks of these sectors, the Fund applies the exclusions set out above, coupled with a commitment policy that aims to promote dialogue with issuers and support them in improving their ESG practices. In order to achieve this, the management team selects high-quality money market instruments in euro or other currencies in consideration of their residual life. These securities are selected from within a previously determined investment universe according to an internal risk assessment and monitoring process. In order to assess the credit quality of these instruments, the management company may refer to investment grade ratings from recognised ratings agencies it deems the most relevant, on a non-exclusive basis, when purchasing an instrument; it shall however endeavour to avoid any mechanical dependence on these ratings throughout the period of time in which the securities are held. Securities held in other currencies shall be fully hedged against currency risk. By way of derogation, the 5% limit of the UCI assets may be increased to 100% of its assets when the Fund invests in money market instruments issued or guaranteed individually or jointly by certain sovereign, quasi-sovereign or supranational entities of the European Union as outlined by European Regulation (EU) 2017/1131 of the European Parliament and Council of 14 June 2017. The fund may make temporary purchases and sales of securities. Eligible forward financial instruments may be used for hedging purposes. The UCI is actively managed. The index is used a posteriori as a performance comparison indicator. The management strategy is discretionary and has no index-related constraints. The mutual fund is classified under article 8 of Regulation (EU) 2019/2088 on the publication of sustainability information in the financial services sector (the "Disclosure Regulation").

Intended retail investors: This product is intended for investors with a basic knowledge and little or no experience of investing in funds, who are seeking to increase the value of their investment while preserving all or part of their invested capital over the recommended holding period and who are prepared to assume a medium level of risk on their initial capital.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.com and/or in the prospectus).

Redemption and transaction: Units may be sold (redeemed) daily as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Euro Liquidity SRI prospectus.

Distribution Policy: As this is a non-distributing unit class, investment income is reinvested.

More information: Further information regarding this Fund, including the prospectus and financial reports, is available free of charge on request from:

Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of the Fund is available on www.amundi.fr.

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for more than 1 month. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Amundi Euro Liquidity SRI prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: more than 1 month Investment EUR 10,000		
Scenarios		If you exit after more than 1 month
Minimum	There is no minimum guaranteed return if you exit before more than 1 month. You could lose some or all of your investment.	
Stress Scenario	What you might get back after costs	€9,860
	Average return each year	-1.4%
Unfavourable Scenario	What you might get back after costs	€9,890
	Average return each year	-1.1%
Moderate Scenario	What you might get back after costs	€9,900
	Average return each year	-1.0%
Favourable Scenario	What you might get back after costs	€9,940
	Average return each year	-0.6%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Unfavourable Scenario: This type of scenario occurred for an investment made between 28/02/2022 and 31/03/2022.

Moderate scenario: This type of scenario occurred for an investment made between 29/06/2017 and 31/07/2017.

Favourable scenario: This type of scenario occurred for an investment made between 28/12/2023 and 31/01/2024

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

	Investment EUR 10,000

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after more than 1 month
Entry costs	This includes distribution costs of 1.00% of the amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to EUR 100
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0.00
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.17% of the value of your investment per year. This percentage is based on the actual costs over the last year.	EUR 1.44
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on the volume of our purchases and sales.	EUR 0.46
Incidental costs taken under specific conditions		
Performance fees	30.00% of the annual outperformance of the reference asset. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last five years must be recovered before any new performance fee accrual. The actual amount will vary depending on how well your investment performs. The aforementioned estimate of total costs includes the average over the past five years. The performance fee is paid even if the performance of the unit over the observation period is negative, while remaining higher than the performance of the Reference Asset.	EUR 0.02

How long should I hold it and can I take money out early?

Recommended holding period: more than 1 month. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 1 month. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Redemption orders must be received before 14:00 (Paris time) on the net asset value calculation date. Please refer to the Amundi Euro Liquidity SRI prospectus for more information about redemptions.

How can I complain?

If you have any complaints, you may:

- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
- E-mail to complaints@amundi.com

In the case of a complaint you must clearly indicate your contact details (name, address, phone number or email address) and provide a brief explanation of your complaint. More information is available on our website www.amundi.fr.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

You may find the prospectus, key information documents, notices to investors, financial reports, and further information documents relating to the product including various published policies of the product on our website www.amundi.fr. You may also request a copy of such documents at the registered office of the Management Company.

When this product is used as a unit-linked vehicle in a life insurance or capitalisation contract, additional information about this contract, such as the costs of the contract, which are not included in the costs mentioned in this document, the contact details for complaints and the procedures in the event of default of the insurance company are provided in the key information document of the contract, which must be provided to you by your insurer or broker or any other insurance intermediary in compliance with their legal obligation.

Performance scenarios: You can find previous performance scenarios updated on a monthly basis at www.amundi.fr.

Product

AMUNDI EURO LIQUIDITY SRI - S (C)

Management Company: Amundi Asset Management (hereinafter: "we" or the "Management Company"), a member of the Amundi Group of companies.

FR0013518610 - Currency: EUR

Management Company's website: www.amundi.fr

Call +33 143233030 for more information.

The AMF ("Autorité des Marchés Financiers") is responsible for supervising Amundi Asset Management in relation to this Key Information Document.

Amundi Asset Management is authorised in France under number GP-04000036 and regulated by the AMF.

Key Information Document production date: 07/06/2024.

What is this product?

Type: Units of AMUNDI EURO LIQUIDITY SRI, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

Term: The Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): Standard Variable Net Asset Value Money Market UCI

Objectives: By subscribing to AMUNDI EURO LIQUIDITY SRI, you are investing in money market instruments with a maximum maturity of two years.

The management objective of the Fund is to outperform its capitalised €STR Benchmark Index, the representative index of the Eurozone currency rate, less ongoing charges, while incorporating ESG criteria into the selection process and analysis of the Fund's securities. However, in periods of negative returns on the money market, the Fund's return may be negatively affected. In addition, after deducting ongoing charges, the performance of the Fund may be less than that of the capitalised €STR. The Fund incorporates ESG (Environmental, Social and Governance) criteria when analysing and selecting securities as a complement to financial criteria (liquidity, maturity, profitability and quality). The non-financial analysis results in an ESG rating for each issuer on a scale ranging from A (highest rating) to G (lowest rating). At least 90% of securities in the portfolio have an ESG rating.

In addition, the Fund implements an SRI strategy based on a combination of approaches:

- "rating improvement" approach (the portfolio's average ESG rating must be higher than the ESG rating of the investment universe after eliminating at least 20% of the lowest-rated securities);

- regulatory and sector exclusion approach: exclusion of issuers rated F and G; exclusions of controversial weapons; exclusion of businesses that severely and repeatedly violate one or more of the ten principles of the United Nations Global Compact; and sector exclusions for coal and tobacco according to the current Amundi exclusion policy.

- Best-in-Class which aims to give priority to issuers that are leaders in their business sectors based on ESG criteria identified by the Management Company's team of non-financial analysts.

The Best-in-Class approach does not exclude any business sectors a priori; the Fund may therefore be exposed to certain controversial sectors. To limit the potential non-financial risks of these sectors, the Fund applies the exclusions set out above, coupled with a commitment policy that aims to promote dialogue with issuers and support them in improving their ESG practices. In order to achieve this, the management team selects high-quality money market instruments in euro or other currencies in consideration of their residual life. These securities are selected from within a previously determined investment universe according to an internal risk assessment and monitoring process. In order to assess the credit quality of these instruments, the management company may refer to investment grade ratings from recognised ratings agencies it deems the most relevant, on a non-exclusive basis, when purchasing an instrument; it shall however endeavour to avoid any mechanical dependence on these ratings throughout the period of time in which the securities are held. Securities held in other currencies shall be fully hedged against currency risk. By way of derogation, the 5% limit of the UCI assets may be increased to 100% of its assets when the Fund invests in money market instruments issued or guaranteed individually or jointly by certain sovereign, quasi-sovereign or supranational entities of the European Union as outlined by European Regulation (EU) 2017/1131 of the European Parliament and Council of 14 June 2017. The fund may make temporary purchases and sales of securities. Eligible forward financial instruments may be used for hedging purposes. The UCI is actively managed. The index is used a posteriori as a performance comparison indicator. The management strategy is discretionary and has no index-related constraints. The mutual fund is classified under article 8 of Regulation (EU) 2019/2088 on the publication of sustainability information in the financial services sector (the "Disclosure Regulation").

Intended retail investors: This product is intended for investors with a basic knowledge and little or no experience of investing in funds, who are seeking to increase the value of their investment while preserving all or part of their invested capital over the recommended holding period and who are prepared to assume a medium level of risk on their initial capital.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.com and/or in the prospectus).

Redemption and transaction: Units may be sold (redeemed) daily as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Euro Liquidity SRI prospectus.

Distribution Policy: As this is a non-distributing unit class, investment income is reinvested.

More information: Further information regarding this Fund, including the prospectus and financial reports, is available free of charge on request from:

Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of the Fund is available on www.amundi.fr.

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for more than 1 month. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Amundi Euro Liquidity SRI prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: more than 1 month		
Investment EUR 10,000		
Scenarios		If you exit after more than 1 month
Minimum	There is no minimum guaranteed return if you exit before more than 1 month. You could lose some or all of your investment.	
Stress Scenario	What you might get back after costs	€8,960
	Average return each year	-10.4%
Unfavourable Scenario	What you might get back after costs	€8,990
	Average return each year	-10.1%
Moderate Scenario	What you might get back after costs	€9,000
	Average return each year	-10.0%
Favourable Scenario	What you might get back after costs	€9,030
	Average return each year	-9.7%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Unfavourable Scenario: This type of scenario occurred for an investment made between 28/02/2022 and 31/03/2022.

Moderate scenario: This type of scenario occurred for an investment made between 29/06/2017 and 31/07/2017.

Favourable scenario: This type of scenario occurred for an investment made between 28/12/2023 and 31/01/2024

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

	Investment EUR 10,000
Scenarios	If you exit after more than 1 month*
Total costs	€1,001
Cost impact**	10.0%

* Recommended holding period.

** This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products. These figures include the maximum distribution fee that the person selling you the product may charge (10.00% of amount invested/EUR 1,000). This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

	One-off costs upon entry or exit	If you exit after more than 1 month
Entry costs	This includes distribution costs of 10.00% of the amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to EUR 1,000
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0.00
	Ongoing costs taken each year	
Management fees and other administrative or operating costs	0.10% of the value of your investment per year. This percentage is based on the actual costs over the last year.	EUR 0.77
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on the volume of our purchases and sales.	EUR 0.41
	Incidental costs taken under specific conditions	
Performance fees	30.00% of the annual outperformance of the reference asset. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last five years must be recovered before any new performance fee accrual. The actual amount will vary depending on how well your investment performs. The aforementioned estimate of total costs includes the average over the past five years. The performance fee is paid even if the performance of the unit over the observation period is negative, while remaining higher than the performance of the Reference Asset.	EUR 0.09

How long should I hold it and can I take money out early?

Recommended holding period: more than 1 month. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 1 month. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Redemption orders must be received before 14:00 (Paris time) on the net asset value calculation date. Please refer to the Amundi Euro Liquidity SRI prospectus for more information about redemptions.

How can I complain?

If you have any complaints, you may:

- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
- E-mail to complaints@amundi.com

In the case of a complaint you must clearly indicate your contact details (name, address, phone number or email address) and provide a brief explanation of your complaint. More information is available on our website www.amundi.fr.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

You may find the prospectus, key information documents, notices to investors, financial reports, and further information documents relating to the product including various published policies of the product on our website www.amundi.fr. You may also request a copy of such documents at the registered office of the Management Company.

When this product is used as a unit-linked vehicle in a life insurance or capitalisation contract, additional information about this contract, such as the costs of the contract, which are not included in the costs mentioned in this document, the contact details for complaints and the procedures in the event of default of the insurance company are provided in the key information document of the contract, which must be provided to you by your insurer or broker or any other insurance intermediary in compliance with their legal obligation.

Past performance: You can download the past performance of the Fund over the last five years at www.amundi.fr.

Performance scenarios: You can find previous performance scenarios updated on a monthly basis at www.amundi.fr.

In order to assess the credit quality of these instruments, the management company may refer to investment grade ratings from recognised ratings agencies it deems the most relevant, on a non-exclusive basis, when purchasing an instrument; it shall however endeavour to avoid any mechanical dependence on these ratings throughout the period of time in which the securities are held. Securities held in other currencies shall be fully hedged against currency risk. By way of derogation, the 5% limit of the UCI assets may be increased to 100% of its assets when the Fund invests in money market instruments issued or guaranteed individually or jointly by certain sovereign, quasi-sovereign or supranational entities of the European Union as outlined by European Regulation (EU) 2017/1131 of the European Parliament and Council of 14 June 2017. The fund may make temporary purchases and sales of securities. Eligible forward financial instruments may be used for hedging purposes. The UCI is actively managed. The index is used a posteriori as a performance comparison indicator. The management strategy is discretionary and has no index-related constraints. The mutual fund is classified under article 8 of Regulation (EU) 2019/2088 on the publication of sustainability information in the financial services sector (the "Disclosure Regulation").

Intended retail investors: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds, seeking to increase the value of their investment and to receive income while preserving some or all of the capital invested over the recommended holding period and who are prepared to take on a medium level of risk to their original capital.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.com and/or in the prospectus).

Redemption and transaction: Units may be sold (redeemed) daily as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Euro Liquidity SRI prospectus.

Distribution Policy: As this is a non-distributing unit class, investment income is reinvested.

More information: Further information regarding this Fund, including the prospectus and financial reports, is available free of charge on request from:

Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of the Fund is available on www.amundi.fr.

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for more than 1 month. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Amundi Euro Liquidity SRI prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: more than 1 month		
Investment EUR 10,000		
Scenarios		If you exit after more than 1 month
Minimum	There is no minimum guaranteed return if you exit before more than 1 month. You could lose some or all of your investment.	
Stress Scenario	What you might get back after costs	€9,960
	Average return each year	-0.4%
Unfavourable Scenario	What you might get back after costs	€9,990
	Average return each year	-0.1%
Moderate Scenario	What you might get back after costs	€10,000
	Average return each year	0.0%
Favourable Scenario	What you might get back after costs	€10,040
	Average return each year	0.4%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Unfavourable Scenario: This type of scenario occurred for an investment made between 28/02/2022 and 31/03/2022.

Moderate scenario: This type of scenario occurred for an investment made between 29/06/2017 and 31/07/2017.

Favourable scenario: This type of scenario occurred for an investment made between 28/12/2023 and 31/01/2024

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

Investment EUR 10,000	
Scenarios	If you exit after more than 1 month*
Total costs	€1
Cost impact**	0.0%

* Recommended holding period.

** This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products. We do not charge an entry fee

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after more than 1 month
Entry costs	We do not charge an entry fee for this product.	Up to EUR 0
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0.00
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.13% of the value of your investment per year. This percentage is based on the actual costs over the last year.	EUR 1.12
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on the volume of our purchases and sales.	EUR 0.46
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0.00

How long should I hold it and can I take money out early?

Recommended holding period: more than 1 month. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 1 month. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Redemption orders must be received before 14:00 (Paris time) on the net asset value calculation date. Please refer to the Amundi Euro Liquidity SRI prospectus for more information about redemptions.

How can I complain?

If you have any complaints, you may:

- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
- E-mail to complaints@amundi.com

In the case of a complaint you must clearly indicate your contact details (name, address, phone number or email address) and provide a brief explanation of your complaint. More information is available on our website www.amundi.fr.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

You may find the prospectus, key information documents, notices to investors, financial reports, and further information documents relating to the product including various published policies of the product on our website www.amundi.fr. You may also request a copy of such documents at the registered office of the Management Company.

When this product is used as a unit-linked vehicle in a life insurance or capitalisation contract, additional information about this contract, such as the costs of the contract, which are not included in the costs mentioned in this document, the contact details for complaints and the procedures in the event of default of the insurance company are provided in the key information document of the contract, which must be provided to you by your insurer or broker or any other insurance intermediary in compliance with their legal obligation.

Past performance: You can download the past performance of the Fund over the last five years at www.amundi.fr.

Performance scenarios: You can find previous performance scenarios updated on a monthly basis at www.amundi.fr.

Product

AMUNDI EURO LIQUIDITY SRI - Z (C)

Management Company: Amundi Asset Management (hereinafter: "we" or the "Management Company"), a member of the Amundi Group of companies.

FR0014005XM0 - Currency: EUR

Management Company's website: www.amundi.fr

Call +33 143233030 for more information.

The AMF ("Autorité des Marchés Financiers") is responsible for supervising Amundi Asset Management in relation to this Key Information Document.

Amundi Asset Management is authorised in France under number GP-04000036 and regulated by the AMF.

Key Information Document production date: 07/06/2024.

What is this product?

Type: Units of AMUNDI EURO LIQUIDITY SRI, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

Term: The Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): Standard Variable Net Asset Value Money Market UCI

Objectives: By subscribing to AMUNDI EURO LIQUIDITY SRI, you are investing in money market instruments with a maximum maturity of two years.

The management objective of the Fund is to outperform its capitalised €STR Benchmark Index, the representative index of the Eurozone currency rate, less ongoing charges, while incorporating ESG criteria into the selection process and analysis of the Fund's securities. However, in periods of negative returns on the money market, the Fund's return may be negatively affected. In addition, after deducting ongoing charges, the performance of the Fund may be less than that of the capitalised €STR. The Fund incorporates ESG (Environmental, Social and Governance) criteria when analysing and selecting securities as a complement to financial criteria (liquidity, maturity, profitability and quality). The non-financial analysis results in an ESG rating for each issuer on a scale ranging from A (highest rating) to G (lowest rating). At least 90% of securities in the portfolio have an ESG rating.

In addition, the Fund implements an SRI strategy based on a combination of approaches:

- "rating improvement" approach (the portfolio's average ESG rating must be higher than the ESG rating of the investment universe after eliminating at least 20% of the lowest-rated securities);

- regulatory and sector exclusion approach: exclusion of issuers rated F and G; exclusions of controversial weapons; exclusion of businesses that severely and repeatedly violate one or more of the ten principles of the United Nations Global Compact; and sector exclusions for coal and tobacco according to the current Amundi exclusion policy.

- Best-in-Class which aims to give priority to issuers that are leaders in their business sectors based on ESG criteria identified by the Management Company's team of non-financial analysts.

The Best-in-Class approach does not exclude any business sectors a priori; the Fund may therefore be exposed to certain controversial sectors. To limit the potential non-financial risks of these sectors, the Fund applies the exclusions set out above, coupled with a commitment policy that aims to promote dialogue with issuers and support them in improving their ESG practices. In order to achieve this, the management team selects high-quality money market instruments in euro or other currencies in consideration of their residual life. These securities are selected from within a previously determined investment universe according to an internal risk assessment and monitoring process. In order to assess the credit quality of these instruments, the management company may refer to investment grade ratings from recognised ratings agencies it deems the most relevant, on a non-exclusive basis, when purchasing an instrument; it shall however endeavour to avoid any mechanical dependence on these ratings throughout the period of time in which the securities are held. Securities held in other currencies shall be fully hedged against currency risk. By way of derogation, the 5% limit of the UCI assets may be increased to 100% of its assets when the Fund invests in money market instruments issued or guaranteed individually or jointly by certain sovereign, quasi-sovereign or supranational entities of the European Union as outlined by European Regulation (EU) 2017/1131 of the European Parliament and Council of 14 June 2017. The fund may make temporary purchases and sales of securities. Eligible forward financial instruments may be used for hedging purposes. The UCI is actively managed. The index is used a posteriori as a performance comparison indicator. The management strategy is discretionary and has no index-related constraints. The mutual fund is classified under article 8 of Regulation (EU) 2019/2088 on the publication of sustainability information in the financial services sector (the "Disclosure Regulation").

Intended retail investors: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds, seeking to increase the value of their investment and to receive income while preserving some or all of the capital invested over the recommended holding period and who are prepared to take on a medium level of risk to their original capital.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.com and/or in the prospectus).

Redemption and transaction: Units may be sold (redeemed) daily as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Euro Liquidity SRI prospectus.

Distribution Policy: As this is a non-distributing unit class, investment income is reinvested.

More information: Further information regarding this Fund, including the prospectus and financial reports, is available free of charge on request from:

Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of the Fund is available on www.amundi.fr.

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

Lowest risk

Highest risk

The risk indicator assumes you keep the product for more than 1 month. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Amundi Euro Liquidity SRI prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: more than 1 month		
Investment EUR 10,000		
Scenarios		If you exit after more than 1 month
Minimum	There is no minimum guaranteed return if you exit before more than 1 month. You could lose some or all of your investment.

	Average return each year	-6.3%
Unfavourable Scenario	What you might get back after costs	€9,400
	Average return each year	-6.0%
Moderate Scenario	What you might get back after costs	€9,410
	Average return each year	-5.9%
Favourable Scenario	What you might get back after costs	€9,440
	Average return each year	-5.6%

The figures shown include all the costs of the product itself, but may or may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Unfavourable Scenario: This type of scenario occurred for an investment made between 28/02/2022 and 31/03/2022.

Moderate scenario: This type of scenario occurred for an investment made between 29/06/2017 and 31/07/2017.

Favourable scenario: This type of scenario occurred for an investment made between 28/12/2023 and 31/01/2024

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

Investment EUR 10,000	
Scenarios	If you exit after more than 1 month*
Total costs	€592
Cost impact**	5.9%

* Recommended holding period.

** This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other products. These figures include the maximum distribution fee that the person selling you the product may charge (3.00% of amount invested/EUR 300). This person will inform you of the actual distribution fee.

COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after more than 1 month
Entry costs	This includes distribution costs of 3.00% of the amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	Up to EUR 300
Exit costs	You may be charged up to a maximum of 3.00% of your investment before it is paid out to you. The person selling you the product will inform you of the actual charges.	EUR 291.00
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.08% of the value of your investment per year. This percentage is based on the actual costs over the last year.	EUR 0.64
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on the volume of our purchases and sales.	EUR 0.45
Incidental costs taken under specific conditions		
Performance fees	30.00% of the annual outperformance of the reference asset. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last five years must be recovered before any new performance fee accrual. The actual amount will vary depending on how well your investment performs. The aforementioned estimate of total costs includes the average over the past five years. The performance fee is paid even if the performance of the unit over the observation period is negative, while remaining higher than the performance of the Reference Asset.	EUR 0.02

How long should I hold it and can I take money out early?

Recommended holding period: more than 1 month. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 1 month. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Redemption orders must be received before 14:00 (Paris time) on the net asset value calculation date. Please refer to the Amundi Euro Liquidity SRI prospectus for more information about redemptions.

How can I complain?

If you have any complaints, you may:

- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
- E-mail to complaints@amundi.com

In the case of a complaint you must clearly indicate your contact details (name, address, phone number or email address) and provide a brief explanation of your complaint. More information is available on our website www.amundi.fr.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

AMUNDI EURO LIQUIDITY SRI - R4 (C)

Management Company: Amundi Asset Management (hereinafter: "we" or the "Management Company"), a member of the Amundi Group of companies.

FR001400KDY2 - Currency: EUR

Management Company's website: www.amundi.fr

Call +33 143233030 for more information.

The AMF ("Autorité des Marchés Financiers") is responsible for supervising Amundi Asset Management in relation to this Key Information Document.

Amundi Asset Management is authorised in France under number GP-04000036 and regulated by the AMF.

Key Information Document production date: 07/06/2024.

What is this product?

Type: Units of AMUNDI EURO LIQUIDITY SRI, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of an FCP.

Term: The Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): Standard Variable Net Asset Value Money Market UCI

Objectives: By subscribing to AMUNDI EURO LIQUIDITY SRI, you are investing in money market instruments with a maximum maturity of two years.

The management objective of the Fund is to outperform its capitalised €STR Benchmark Index, the representative index of the Eurozone currency rate, less ongoing charges, while incorporating ESG criteria into the selection process and analysis of the Fund's securities. However, in periods of negative returns on the money market, the Fund's return may be negatively affected. In addition, after deducting ongoing charges, the performance of the Fund may be less than that of the capitalised €STR. The Fund incorporates ESG (Environmental, Social and Governance) criteria when analysing and selecting securities as a complement to financial criteria (liquidity, maturity, profitability and quality). The non-financial analysis results in an ESG rating for each issuer on a scale ranging from A (highest rating) to G (lowest rating). At least 90% of securities in the portfolio have an ESG rating.

In addition, the Fund implements an SRI strategy based on a combination of approaches:

- "rating improvement" approach (the portfolio's average ESG rating must be higher than the ESG rating of the investment universe after eliminating at least 20% of the lowest-rated securities);

- regulatory and sector exclusion approach: exclusion of issuers rated F and G; exclusions of controversial weapons; exclusion of businesses that severely and repeatedly violate one or more of the ten principles of the United Nations Global Compact; and sector exclusions for coal and tobacco according to the current Amundi exclusion policy.

- Best-in-Class which aims to give priority to issuers that are leaders in their business sectors based on ESG criteria identified by the Management Company's team of non-financial analysts.

The Best-in-Class approach does not exclude any business sectors a priori; the Fund may therefore be exposed to certain controversial sectors. To limit the potential non-financial risks of these sectors, the Fund applies the exclusions set out above, coupled with a commitment policy that aims to promote dialogue with issuers and support them in improving their ESG practices. In order to achieve this, the management team selects high-quality money market instruments in euro or other currencies in consideration of their residual life. These securities are selected from within a previously determined investment universe according to an internal risk assessment and monitoring process. In order to assess the credit quality of these instruments, the management company may refer to investment grade ratings from recognised ratings agencies it deems the most relevant, on a non-exclusive basis, when purchasing an instrument; it shall however endeavour to avoid any mechanical dependence on these ratings throughout the period of time in which the securities are held. Securities held in other currencies shall be fully hedged against currency risk. By way of derogation, the 5% limit of the UCI assets may be increased to 100% of its assets when the Fund invests in money market instruments issued or guaranteed individually or jointly by certain sovereign, quasi-sovereign or supranational entities of the European Union as outlined by European Regulation (EU) 2017/1131 of the European Parliament and Council of 14 June 2017. The fund may make temporary purchases and sales of securities. Eligible forward financial instruments may be used for hedging purposes. The UCI is actively managed. The index is used a posteriori as a performance comparison indicator. The management strategy is discretionary and has no index-related constraints. The mutual fund is classified under article 8 of Regulation (EU) 2019/2088 on the publication of sustainability information in the financial services sector (the "Disclosure Regulation").

Intended retail investors: This product is intended for investors with a basic knowledge and little or no experience of investing in funds, who are seeking to increase the value of their investment while preserving all or part of their invested capital over the recommended holding period and who are prepared to assume a medium level of risk on their initial capital.

The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.com and/or in the prospectus).

Redemption and transaction: Units may be sold (redeemed) daily as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the Amundi Euro Liquidity SRI prospectus.

Distribution Policy: As this is a non-distributing unit class, investment income is reinvested.

More information: Further information regarding this Fund, including the prospectus and financial reports, is available free of charge on request from:

Amundi Asset Management - 91-93 boulevard Pasteur, 75015 Paris, France.

The net asset value of the Fund is available on www.amundi.fr.

Depository: CACEIS Bank.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for more than 1 month.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

The use of complex products such as derivatives can lead to increased movement of securities in your portfolio.

Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Amundi Euro Liquidity SRI prospectus.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last ten years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

Recommended holding period: more than 1 month		
Investment EUR 10,000

Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	EUR 0.00
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.11% of the value of your investment per year. This percentage is an estimate.	EUR 0.87
Transaction costs	0.06% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on the volume of our purchases and sales.	EUR 0.44
Incidental costs taken under specific conditions		
Performance fees	30.00% of the annual outperformance of the reference asset. The calculation applies on each Net Asset Value calculation date in accordance with the terms described in the prospectus. Past underperformances over the last five years must be recovered before any new performance fee accrual. The actual amount will vary depending on how well your investment performs. The aforementioned estimate of total costs includes the average over the past five years. The performance fee is paid even if the performance of the unit over the observation period is negative, while remaining higher than the performance of the Reference Asset.	EUR 0.00

How long should I hold it and can I take money out early?

Recommended holding period: more than 1 month. This period is based on our assessment of the risk and reward characteristics and costs of the Fund. This product is designed for short-term investment; you should be prepared to stay invested for at least 1 month. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Redemption orders must be received before 14:00 (Paris time) on the net asset value calculation date. Please refer to the Amundi Euro Liquidity SRI prospectus for more information about redemptions.

How can I complain?

If you have any complaints, you may:

- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
- E-mail to complaints@amundi.com

In the case of a complaint you must clearly indicate your contact details (name, address, phone number or email address) and provide a brief explanation of your complaint. More information is available on our website www.amundi.fr.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

Other relevant information

You may find the prospectus, key information documents, notices to investors, financial reports, and further information documents relating to the product including various published policies of the product on our website www.amundi.fr. You may also request a copy of such documents at the registered office of the Management Company.

When this product is used as a unit-linked vehicle in a life insurance or capitalisation contract, additional information about this contract, such as the costs of the contract, which are not included in the costs mentioned in this document, the contact details for complaints and the procedures in the event of default of the insurance company are provided in the key information document of the contract, which must be provided to you by your insurer or broker or any other insurance intermediary in compliance with their legal obligation.

Past performance: There is insufficient data to provide a useful indication of past performance to retail investors.

Performance scenarios: You can find previous performance scenarios updated on a monthly basis at www.amundi.fr.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the period, the product promoted environmental and/or social characteristics by targeting an ESG score higher than that of the investment universe represented by **ICE BOFA 1-3 YEAR GLOBAL CORPORATE INDEX**. To determine the ESG rating of the product and the investment universe, ESG performance is assessed on an ongoing basis by comparing a security's average performance against the sector of the security's issuer for each of the three ESG characteristics (environmental, social, and governance). The investment universe is a broad market universe that does not evaluate or include components based on environmental and/or social characteristics and is therefore not intended to be consistent with the characteristics promoted by the fund. No ESG benchmarks have been assigned.

This product is a certified SRI (Socially Responsible Investment) Throughout the year, it sought to promote all three dimensions (environmental, social, and corporate governance), taking into account the ESG rating of issuers in the construction of the portfolio.

The ESG rating of issuers is intended to evaluate their ability to manage the potential negative impact of their activities on sustainability factors. This analysis assesses their Environmental, Social, and

Corporate Governance behaviour and assign them an ESG rating from A (highest rating) to G (lowest rating), in order to conduct a more inclusive assessment of the risks.

1. The portfolio consistently implemented the following Amundi exclusion policy:

- legal exclusions on controversial weapons
- companies that seriously and repeatedly violate one or more of the Ten Principles of the UN Global Compact without implementing credible corrective measures
- Amundi's sectoral exclusions on Coal and Tobacco (the details of this policy are available in Amundi's Responsible Investment Policy available on www.amundi.fr).

2. No investment was made in issuers with "F" or "G" ratings. For issuers whose ratings were downgraded to "F" or "G", the securities already present in the portfolio are sold within the time period stipulated in the commitments set out in the product's prospectus.

3. The portfolio's weighted average ESG rating was consistently higher than that of the product's investment universe once at least 20% of the lowest-rated issuers were eliminated

4. The product favoured the issuers with the highest ratings in their sector of activity according to the ESG criteria identified by the asset manager's non-financial analysis team ("Best in Class" approach). With the exception of the above exclusions, all economic sectors are represented in this approach and the fund could, as a result, be exposed to certain controversial sectors.

● *How did the sustainability indicators perform?*

Amundi has developed its own internal ESG rating process based on the best-in-class approach. Ratings adapted to each industry sector aim to assess the dynamics in which companies operate.

The sustainability indicator used is the product's average ESG rating, which must be higher than the ESG rating of its investment universe.

At the end of the period:

- The portfolio's weighted average ESG rating is: 0.958 (C).
- The weighted average ESG rating of the reference universe is: 0.059 (D).

To determine ESG ratings, the Amundi ESG scoring system uses a quantitative ESG rating translated into seven scores ranging from A (the highest scores in the universe) to G (the lowest). Amundi's ESG scoring system gives securities on the exclusion list a G rating.

The ESG performance of corporate issuers is assessed globally and takes account of relevant criteria via comparison to the average performance of their business sector through a combination of all three ESG dimensions:

- the environmental dimension: this examines the ability of issuers to control their direct and indirect impact on the environment by limiting their energy consumption, reducing their greenhouse gas emissions, combating resource depletion, and protecting biodiversity;
- the social dimension: this measures the way an issuer operates on two different concepts: its strategy on developing human capital and respecting human rights in general;
- the governance dimension: this assesses the issuer's ability to provide the bases for an effective corporate governance framework and generate long-term value.

The ESG rating methodology used by Amundi is based on 38 criteria, either generic (common to all companies regardless of their activity), or sectoral, weighted by sector and considered according to their impact on reputation, operational efficiency, and issuer regulations. Amundi's ESG ratings can either be expressed as a general score covering all three dimensions: E, S, and G, or individually on any environmental or social factor.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***...and compared to previous periods?***

At the end of the previous period, the portfolio's weighted average ESG score was (), and that of the investment universe was ().

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments were to invest in companies that met two criteria:

1. follow best environmental and social practices; and
2. do not generate products and services that harm the environment and society.

The definition of a "best performing" company is based on a proprietary Amundi ESG methodology that is designed to measure a company's ESG performance. To be considered as the "best performing", a company must obtain the best rating among the top three (A, B or C, on a rating scale ranging from A to G) in its sector on at least one important environmental or social factor. Significant environmental and social factors are identified at the sector level. The identification of these factors is based on Amundi's ESG analysis framework, which combines extra-financial data with a qualitative analysis of the related sector and sustainability themes. Factors identified as material have a contribution of more than 10% to the overall ESG rating. For the energy sector, for example, material factors are: emissions and energy, biodiversity and pollution, health and safety, local communities, and human rights.

In order to contribute to the above objectives, the investee company should not have significant exposure to activities (e.g. tobacco, weapons, gambling, coal, aviation, meat production, fertilizer and pesticides, single-use plastic production) that are not compatible with these criteria.

The sustainable nature of an investment is assessed at the level of the investee company. Concerning external UCIs, the criteria for determining the sustainable investments that these underlying UCIs may hold and their objectives depend on each company's own management approach.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

To ensure that sustainable investments do not cause significant harm, Amundi uses two tests:

- The first “DNSH” (“Do No Significant Harm”) test is based on the monitoring of the mandatory indicators of the Main Negative Impacts in Annex 1, Table 1 of Delegated Regulation (EU) 2022/1288 when reliable data is available (for example, the GHG intensity or greenhouse gas intensity of beneficiary companies) via a combination of indicators (e.g. carbon intensity) and specific thresholds or rules (e.g. The carbon intensity of beneficiary companies is not within the sector’s last decile). Amundi already considers specific indicators of the Main Negative Impacts in its exclusion policy as part of the Amundi Responsible Investment Policy (e.g. exposure to controversial weapons). These exclusions, which apply in addition to the tests detailed above, cover the following topics: exclusions on controversial weapons, violations of the principles of the UN Global Compact, coal and tobacco.
- In addition to the specific sustainability factors covered by the first filter, Amundi has defined a second filter that does not consider the mandatory indicators of the Main Negative Impacts above, so as to verify that a company’s overall environmental or social performance is not worse than other companies in its sector, corresponding to an environmental or social rating of E or higher according to Amundi’s ESG rating system.

Concerning external UCIs, the consideration of the “do no significant harm” principle and the impact of sustainable investments depends on each underlying UCI manager’s own methodologies.

– ***How were the indicators for adverse impacts on sustainability factors taken into account?***

As detailed above, the negative impact indicators were taken into account in the first DNSH filter (Do No Significant Harm):

This is based on the monitoring of the mandatory indicators of the Main Negative Impacts in Appendix 1, Table 1 of Delegated Regulation (EU) 2022/1288 when reliable data is available via the combination of the following indicators and specific thresholds or rules:

- has a CO2 intensity that is not within the last decile of companies in the sector (only applicable to high-intensity sectors), and
- has board diversity that is not within the last decile of companies in its sector, and
- is free from any controversy regarding working conditions and human rights
- is free from any controversy regarding biodiversity and pollution.

Amundi already takes into account the specific Negative Main Impacts in its exclusion policy as part of its Responsible Investment Policy. These exclusions, which apply in addition to the tests detailed above, cover the following topics: exclusions on controversial weapons, violations of the principles of the United Nations Global Compact, coal and tobacco.

– ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?***

Yes. The OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights have been incorporated into Amundi's ESG rating methodology. The proprietary ESG rating tool evaluates issuers using data available from data providers. For example, the model includes a dedicated criterion called "Community inclusion and Human rights" that is applied to all sectors in addition to other Human rights criteria, including socially responsible supply chains, working conditions and professional relations. In addition, we monitor controversies at least on a quarterly basis, which includes companies identified for Human rights violations. When controversies arise, analysts assess the situation and give a score to the controversy (using an exclusive, proprietary rating methodology) and determine the best steps to follow. Controversy scores are updated quarterly to track trends and remediation efforts.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities. Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The mandatory indicators of the Negative Main Impacts set out in Appendix 1, Table 1 of Delegated Regulation (EU) 2022/1288 were taken into account by implementing exclusion policies (normative and sectoral) and integrating ESG rating into the investment process, engagement and voting approaches:

- **Exclusion:** Amundi has defined normative exclusion rules, by activity and by sector, covering some of the main sustainability indicators listed in the "Disclosure" Regulation.
- **Incorporation of ESG factors** Amundi has adopted minimum ESG integration standards applied by default to its actively managed open-ended funds (exclusion of G-rated issuers and best weighted average ESG rating above the applicable benchmark). The 38 criteria used in Amundi's ESG rating approach were also designed to take into account key impacts on sustainability factors along with the quality of mitigation.
- **Engagement:** engagement is an ongoing and targeted process aimed at influencing companies' activities or behaviour. The objective of the engagement can be divided into two categories: engaging an issuer to improve the way in which it integrates the environmental and social dimension and engaging an issuer to improve its impact on environmental, social and Human rights issues or other sustainability issues that are important to society and the global economy.
- **Voting:** Amundi's voting policy relies on a holistic analysis of all long-term issues that may influence value creation, including material ESG issues (Amundi's voting policy can be consulted on its website).
- **Monitoring controversies:** Amundi has developed a controversy monitoring system that relies on three external data providers to systematically monitor controversies and their level of severity. This quantitative approach is then enhanced by an in-depth assessment of each severe controversy conducted by ESG analysts and a periodic review of its developments.

This approach applies to all Amundi funds.

For additional information on how the mandatory indicators of Key Negative Impacts are used, please see the SFDR Statement available at www.amundi.fr.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **from 01/09/2023 to 31/08/2024**

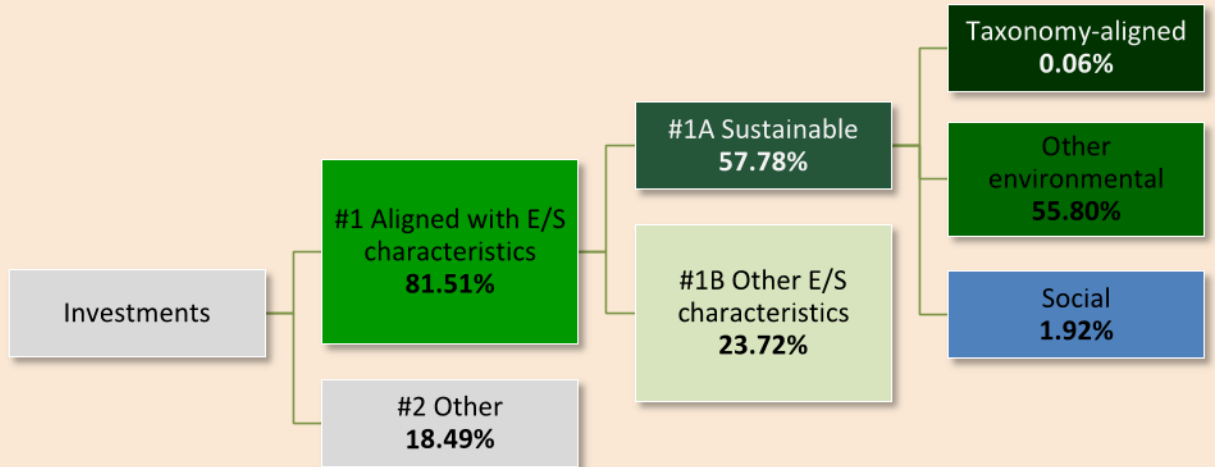

Largest investments	Sector	Sub-sector	Country	% Assets

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product. **#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● *In which economic sectors were the investments made?*

<i>Sector</i>	<i>Sub-sector</i>	<i>% Assets</i>
<i>Corporate</i>	<i>Banking</i>	<i>54.62%</i>
<i>Other</i>	<i>Other</i>	<i>10.27%</i>
<i>Finance</i>	<i>Funds</i>	<i>5.76%</i>
<i>Government bonds</i>	<i>Government bonds</i>	<i>3.95%</i>
<i>Corporate</i>	<i>Consumer Discretionary</i>	<i>1.41%</i>
<i>Secured</i>	<i>Mortgage assets</i>	<i>1.12%</i>
<i>Corporate</i>	<i>Capital goods</i>	<i>0.84%</i>
<i>Corporate</i>	<i>Natural gas</i>	<i>0.62%</i>
<i>Corporate</i>	<i>Consumer Staples</i>	<i>0.55%</i>
<i>Corporate</i>	<i>Other utilities</i>	<i>0.51%</i>
<i>Corporate</i>	<i>Communications</i>	<i>0.44%</i>
<i>Corporate</i>	<i>Other financial institutions</i>	<i>0.44%</i>
<i>Corporate</i>	<i>Financial institutions</i>	<i>0.40%</i>
<i>Corporate</i>	<i>Energy</i>	<i>0.26%</i>
<i>Quasi-States</i>	<i>Agencies</i>	<i>0.12%</i>
<i>Corporate</i>	<i>Electricity</i>	<i>0.12%</i>
<i>Corporate</i>	<i>Technology</i>	<i>0.08%</i>
<i>Liquid capital</i>	<i>Liquid capital</i>	<i>18.48%</i>

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund promotes both environmental and social characteristics. Although the fund does not commit to making Taxonomy-aligned investments, it nevertheless invested 0.06% in Taxonomy-aligned sustainable investments during the period under review. These investments contributed to the climate change mitigation objectives of the EU Taxonomy.

The alignment of investee companies with the aforementioned objectives of the EU taxonomy is measured using data on turnover (or revenue) and/or the use of green bond proceeds.

Neither the fund's auditors nor a third party has verified the percentage alignment of the fund's investments with the EU taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

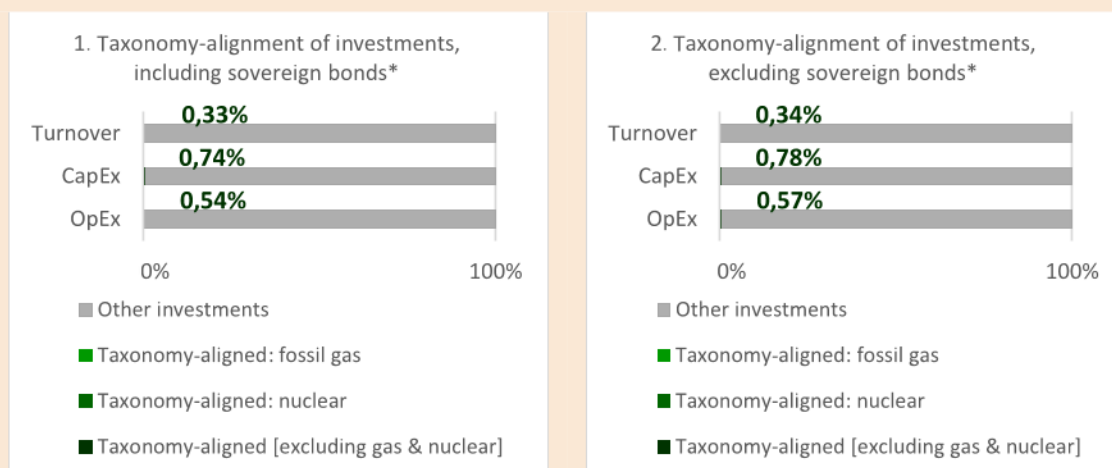

☐ In fossil gas In n☐ ear energy

☒ No

Reliable data on alignment with the EU Taxonomy for fossil gas and nuclear energy was not available during the period.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Using data relating to turnover and/or the use of green bond proceeds as an indicator, 0.00% of the fund's investments were in transitional activities and 0.06% were in enabling activities as at 31/08/2024. Neither the fund's auditors nor a third party has verified the percentage alignment of the fund's investments with the EU taxonomy.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

At the end of the previous period, the percentage of investments aligned with the Taxonomy was 0.79%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective not aligned with the Taxonomy was **55.80%** at the end of the period. This is due to the fact that some issuers are considered sustainable investments under the SFDR but some of their activities are not aligned with Taxonomy standards, or data is not yet available for them to perform such an assessment.

What was the share of socially sustainable investments?

The portion of socially sustainable investments at the end of the period was **1.92%**.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Cash and/or other instruments held for liquidity and portfolio risk management purposes were included in category “#2 Other”. For non-rated bonds and equities, minimum environmental and social guarantees are applied by filtering for controversial issues in relation to the principles of the United Nations Global Compact. Instruments not covered by an ESG analysis may also include securities for which the data necessary to measure the achievement of environmental or social characteristics were not available. Moreover, minimum environmental or social guarantees have not been defined.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Sustainability indicators are made available in the portfolio management system, allowing managers to instantly assess the impact of their investment decisions on the portfolio. These indicators are integrated into Amundi's control framework, with responsibilities being divided between the first level of control carried out by the investment teams themselves and the second carried out by the risk teams, which constantly monitor compliance with the environmental or social characteristics promoted by the product. In addition, Amundi's responsible investment policy defines an active engagement approach that promotes dialogue with investee companies, including those in this portfolio. The annual engagement report, available on <https://legroupe.amundi.com/documentation-esg>, provides detailed information on this engagement and its results.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

This product does not have an ESG benchmark.

- ***How does the reference benchmark differ from a broad market index?***

This product does not have an ESG benchmark.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

This product does not have an ESG benchmark.

- ***How did this financial product perform compared with the reference benchmark?***

This product does not have an ESG benchmark.

- ***How did this financial product perform compared with the broad market index?***

This product does not have an ESG benchmark.

French Energy Transition for Green Growth Act

This annual report will be supplemented with the information required pursuant to Decree No. 2021-663 of 27 May 2021 implementing Article 29 of the Energy and Climate Act within 6 months of the end of the financial period.
