## Monthly Report - 30/04/2025

### Objective and Investment Policy

The Product's objective is to generate attractive risk-adjusted returns and achieve long-term capital growth by investing in private equity, private infrastructure and private debt opportunities with a high level of diversification and with a focus on assets favoring digital, environmental, energy and societal transitions.

The Sub-Fund will create in respect of each respective pocket a diversified portfolio of investments by way of taking participations in equity, quasi-equity or debt instruments issued by qualifying portfolio undertakings (within the meaning of the ELTIF Regulation) or otherwise by investing in collective or financial undertaking investing in Qualifying Portfolio Undertakings.

As an ELTIF, the Product may invest in long-term assets, meaning assets that are typically of an illiquid nature, require patient capital based on commitments made for a considerable period of time, often provide late return on investment and generally have an economic profile of a long-term nature. The Product will itself be, and an investment in the Sub-Fund should be viewed by investors, as long term in nature.

### Risk indicator

Lower Risk

Higher Risk

The summary risk indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a high-risk class. This rates the potential losses from future performance at a high level, and poor market conditions could impact our capacity to pay you. The actual risk can vary significantly if you cash in before the minimum required holding period and you may get back less. Materially relevant risks not included in the SRI are: long-term nature of investments and liquidity risk. Other risk factors are detailed in the supplement of the Product. The risk indicator assumes you keep the product for 5 years.

### ESG and Transitions commentary

The Fund's portfolio is classified in accordance with article 8 under EU's Sustainable Finance Disclosure Regulation ("SFDR"). The Fund commits to promote environmental, social and governance characteristics within its investments and create value through private markets. It seeks to limit its exposure to companies that are likely to contribute negatively on our society or the environment and will target its investments in sectors where, inter alia, value creation will be driven by opportunities generated by transitions (ecological, territorial, societal, digitalization, etc.).
